Acknowledgements

The authors want to gratefully acknowledge the significant role Robin Rempel played in the development of this teacher’s guide and the accompanying pupil primers. The methodology outlined in this teacher’s guide is primarily based on the ideas Robin formulated in her Multi-Strategy Economy Model for teaching literacy skills to children.

Robin developed the Multi-Strategy Economy Model or M-SEM while working with SIL in Papua New Guinea in the 1980s. It was an adaptation of the Multi-Strategy Method developed by Mary Stringer. Robin felt that a simpler, more economical approach was needed in a developing country context.

Since that time, M-SEM has been successfully implemented in a variety of countries including Kenya and Nigeria in Africa and Mexico and Peru in Latin America. Mango Tree has adapted M-SEM to meet the curriculum requirements of the Ugandan Ministry of Education and Sports. Our model also includes several innovations borrowed from other successful literacy methods.

Robin Rempel and her colleagues at SIL have provided us with much appreciated technical support throughout the development of these materials. Any mistakes or errors, however, are our responsibility.

For more information about M-SEM and SIL’s work to support multi-lingual education around the world, use the links listed below:

We also want to acknowledge the important role the following local literacy stakeholders have played in the development of these materials:

Loro Primary Teacher College

The principal, Mr. Odwilo Simon, and his staff, most especially the Coordinating Centre Tutors Mrs. Ongom Fresher Ben, Mr. Renge Geoffrey and Mr. Okori Robert, have participated in the development of the materials, trained pilot teachers in how to use the resources and monitored their use in the field.

The Oyam District and Lira Municipal Education Offices

The DEO and MEO and their teams of inspectors have provided technical and operational support for our project from its inception. They identified pilot schools, assisted with gathering baseline literacy data, supervised trainings of pilot teachers and provided monitoring support in the field.

The Lango Language Board

The Lango Language Board has provided crucial technical support about the language and culture. They trained our writers in the Lango orthography and have reviewed all our written work to make sure it conforms to the rules of spelling and grammar.
The Pilot Schools

We are grateful for the following schools for allowing us to pilot our methods and materials in their schools in 2011:

- Aber Primary School, Oyam District
- Alidi Primary School, Oyam District
- Ambalal Primary School, Lira Municipality
- Atapara Primary School, Oyam District
- Ayago Primary School, Lira Municipality
- Kamdidi Primary School, Oyam District

Introduction
Mango Tree’s Local Language Literacy Model

Approach vs. Strategy
What is the difference between a teaching approach and a teaching strategy?

Let’s use a comparison to explain the difference:

A teaching approach is like the road or direction you choose to take as a teacher. As a teacher you may have to choose between several different roads. Each road leads to your final destination – pupil learning – but the routes may be very different.

A teaching strategy, on the other hand, is the way in which you decide to travel your chosen road on any given day. One day you may decide to walk, another day you decide to use a bicycle, and on the third day you may decide that a lorry is the best way to travel.

In other words, a teaching approach is broad. It is a mindset or belief system about how to teach. Teachers generally have strong opinions about their teaching approach and may find it difficult to change.

A teaching strategy is more limited. It involves the tools and techniques you use on a daily basis in your classroom to help children learn. Learning new strategies can also be challenging, but if they are effective most teachers are happy to include them in their teaching practice.

Our Foundation: The 5 Big Ideas of Literacy Instruction

Our instructional model is founded on research-based evidence for effective teaching of literacy. The 5 Big Ideas of Literacy Instruction were developed by a panel of experts who reviewed over 100,000 reading studies to determine the most effective methods for teaching children to read. The final report made it clear. The best approach to literacy instruction is one that incorporates explicit instruction in five fundamental literacy skills. Below is a brief outline of these five skills.

1. **Phonemic Awareness** – is the ability to hear and manipulate the sounds in spoken language. Phonemic awareness includes an understanding by learners that spoken language is composed of sounds and that speech can be isolated into words, syllables and individual sounds. Phonemic Awareness is an auditory skill. It does not require any knowledge of letters or words.

2. **Alphabetic Principle** – is composed of two parts: 1) the understanding that words are composed of letters that represent sounds, and 2) the ability to use one’s knowledge of the sound system to read or spell words.

3. **Vocabulary** – is the ability to understand (receptive vocabulary) and use (expressive vocabulary) words to acquire and convey meaning.

4. **Fluency** – is the ability to read or write text with both speed and accuracy.

5. **Comprehension** – is the ability to extract meaning from text. Comprehension is the essence of reading.

These five literacy skills are embedded in all our daily lessons. And like the 5 Big Ideas themselves, our model is committed to being evidence-based. Teachers assess pupils daily, weekly and termly to track progress in acquiring competence in these five core skills. We also use the Early Grade Reading Assessment (EGRA) at the end of the year to assess each school’s progress in meeting programmatic goals and we share this data widely, especially with local school and district officials.

Approaches to Teaching Literacy

We use an integrated approach to teaching literacy. What do we mean by an “integrated” approach?

Over the years educators have developed different and sometimes conflicting instructional models to teach reading and writing. To keep things simple, let’s generalize and say that all these models fall into two basic teaching approaches: a top-down approach and a bottom-up approach.
To help you understand the difference between a top-down and a bottom-up approach to teaching reading and writing, let’s begin by looking at the main components of written language:

- stories or texts
- paragraphs
- sentences
- phrases
- words
- syllables
- letters

Notice that the biggest component of language - a multi-paragraph story or text - is at the top. The smallest unit – a letter – is at the bottom.

Most traditional teaching programs use a bottom-up approach. In other words, they start at the bottom of our list and teach children the letters, then the syllables, then the words and so on. Although this approach can be effective, it leaves out one important thing: meaning.

Letters and syllables don’t contain much meaning for a child. It is not until you reach the word level that reading and writing becomes meaningful. And while words alone are meaningful, they aren’t very interesting to a child. But what are children very interested in? Stories!

About fifty years ago, some teachers began to see the disadvantages of a bottom-up approach. It just took too long before children had an opportunity to experience reading and writing as meaningful. When language instruction is not meaningful, they argued, children are not motivated to learn.

These concerned teachers began to develop a new approach to teaching reading and writing that focused on meaning first. Their basic idea was to begin literacy instruction with stories and sentences instead of with letters and syllables. Now, fifty years later, there are just as many top-down programs to teach children to read and write as there are bottom-up approaches.

In recent Ugandan history we have had examples of both approaches introduced into government schools. In 1998 all government primary schools received a Jolly Phonics teaching kit. Jolly Phonics is a very effective teaching program developed in the UK that uses a bottom-up teaching approach.

In the early 2000’s Breakthrough to Literacy or BTL was introduced in schools in selected parts of the country including the Lango Sub-region. BTL utilizes a top-down instructional approach.
Below is a chart that summarizes the two approaches:

The approach Mango Tree uses integrates the best ideas of both top-down and bottom-up literacy instruction. So to respond to the question posed at the beginning of this section, "What do we mean by an integrated approach?" our answer is, we call our model an “integrated” approach, because it uses features of both top-down and bottom-up teaching approaches in each day’s lessons.

At Mango Tree, we agree that meaning is crucial to language instruction, a key feature of a top-down approach. That is why we begin each day’s literacy instruction with the teacher and children reading a story together. We call this thirty-minute lesson Story Reading Time.

Immediately after Story Reading Time we continue our top-down approach with Creative Writing Time where pupils write their own stories related to the key word and theme for the week. The children are encouraged to use pictures and words to tell their stories in P1 and by the end of the year many are beginning to write full sentences. By the end of P2 pupils can write a whole story using only sentences – sentences that for the most part use correct capitalization and punctuation.

After break time pupils return for the third, thirty-minute literacy lesson of the day, Word Building Time. This is our opportunity to use a bottom-up approach to reading and writing instruction. Starting with a keyword and key letter, pupils practice blending and segmenting letters and syllables. They also work on their handwriting skills and practice spelling.
The following table summarizes what the Mango Tree model looks like on a daily basis:

You’ll learn more about how we combine both top-down and bottom-up approaches into our daily lesson planning as you read further. For now, let’s look at the three teaching strategies that are embedded in all our lesson plans.

**3 Key Teaching Strategies**

When explaining our instructional model to teachers we often tell them to imagine that they are leading their pupils on a journey that will last for a full academic year. The 5 Principles represent their destination or end point of that journey. If the journey is successful, pupils will significantly improve their competence in the 5 Principles by the end of the year.

There are three roads they can choose from to reach this destination – the Top-Down Road, the Bottom-Up Road or the road we’ve chosen that lies somewhere in between – the Integrated Road.

Continuing this metaphor further, we explain that while on this journey the teachers will use the following three teaching strategies as their daily means of transport – these are the simple techniques they use each day to slowly move their pupils toward increasing competence in the 5 Principles. These strategies can be summarized as follows:
1. **Children Learn by Doing.**

Scientific research on the brain has taught us a lot about the teaching/learning process. Experiments on learning and retention have demonstrated that:

- We remember only about 20% of the information we received only through hearing.
- We remember about 40% of the information we both see and hear.
- We remember 80% or more of the information we see, hear and interact with in a meaningful way.

In designing our lesson plans we've tried to ensure that children are as actively engaged as possible given that class sizes in many of our schools are over 100 pupils.

2. **I do. We do. You do.**

In our model, the teacher always models for children how to do all the steps in a task they will be expected to perform (I do). Next, the teacher asks the pupils to do the task with her (We do). Finally, the teacher has the pupils (as a group or individually) do the task on their own (You do).

3. **From Simple to Complex.**

Our daily and weekly lesson format is designed such that pupils begin the week with a simple reading or writing task to accomplish. As the lesson unfolds over the course of the day and the week, the teacher continues to add complexity to the original task introduced on the first day. By the end of the week, the pupils are able to comfortably accomplish a much more complex reading or writing task. This strategy is also referred to as “scaffolding”.

**Other Important Features of Our Model**

Now you have an overview of how our Literacy Model is structured. We see it as a journey with a clearly defined destination, a specific road we have chosen and daily means of transport to slowly but surely move the learners to our goal. There are other additional features to our model that also need to be addressed. Below are the most important:

**Our model is specially designed for rural Ugandan classrooms**

One of the first things you should know as a Ugandan teacher is that Mango Tree’s literacy model is designed especially for you. Most literacy models that have found their way to Uganda
were originally developed by educators in Western countries. These models were designed for teachers who had small class sizes and access to many different instructional resources. When these models have been introduced in Uganda, teachers find them challenging to implement. Most teachers in our country, especially in early primary, have large classes and few resources. They need an instructional approach and teaching strategies that fit their reality.

Our model can work with a class of one hundred children or more. And you won't need lots of special instructional resources to teach with our model. All you really need for teaching reading and writing in P1 and P2 are the following:

- a teacher's guide (like the one you are reading)
- primers for direct instruction
- readers for extra reading practice
- a chalkboard for the teacher
- slates, chalk and dusters for every child in P1 and exercise books, pencils and erasers in P2

In a later section of this teacher's guide we provide weekly suggestions for additional instructional materials you can make for your classroom if you have the time and resources, but they are not a requirement.

**Locally developed instructional materials**

For local language instruction to be effective it is important that the resource materials that teachers use are developed in the local language and from the local culture right from the beginning – not translated from another language and culture like English.

Leblango is a unique African language. It has special linguistic and cultural features that don't exist in a Western language like English. If we only provide teachers with translated resources, they will not be able to teach the language properly.

The Mango Tree pupil primers were all written by Lango educators who have a good understanding of the language and culture. They evaluated the special features of Leblango and developed lesson plans accordingly.

**Using the body to learn sounds**

Mango Tree has borrowed a teaching strategy from Jolly Phonics. This strategy is highly effective in teaching children the sounds that letters make. When a letter sound is first introduced, the children learn a movement to do while they make the sound. This movement is related to the keyword. For example, the third letter that children learn in P1 Term 2 is “c”. The keyword in Leblango
Mango Tree’s Local Language Literacy Model

is “mac” or “fire”. When the teacher introduces the “c” sound she has the children pretend to light a match while making the “c” sound. This body movement helps the child remember the sound because they are using three of their five senses to remember the sound:

1. They hear the sound “c” with their ears.
2. They see the letter c next to a picture of fire (mac) on the chalkboard or in their primer.
3. They feel the sign (lighting a match) with their body.

We know that everyone learns best when all their senses are involved. This teaching method fixes the letter symbol and sound securely in the child’s mind.

**English literacy is also built into our model**

Mango Tree’s literacy model also includes a set of instructional materials for teaching English. Although our primary focus in early primary is successful local language literacy we acknowledge that in Uganda no literacy model will be judged successful if it isn’t able to transition pupils to instruction in English by the end of P4. Just as with our Leblango materials, our English instructional model is based on and supports the MoES curriculum.

Our English model also uses an integrated instructional approach and employs the three key strategies for daily lesson development. The Leblango and English lessons are interrelated through thematic and vocabulary development. The main characters in the Leblango primer, Apio and Ocen, are also the cousins of James and Sarah who are the main characters in the English primer.

Our English lessons have been developed specifically for pupils in the Lango sub-region. The songs and stories are culturally relevant and the illustrations have been done by a local artist. Our English model uses pupils’ developing knowledge of the Lango language as a means for content instruction in English. We want pupils to move confidently from the known (Leblango) to the unknown (English). In order to facilitate learning and understanding, teachers speak both languages during English class to ensure understanding.
Mango Tree’s Literacy Model and the MoES Curriculum

In about 2005 the Ministry of Education and Sports (MoES) embarked on an ambitious plan to reform Uganda’s early primary education. The reform had several key components:

- A curriculum focused on three core subjects: literacy, numeracy and life skills
- A thematic approach to instruction in these subjects
- Use of a local language as the language of instruction in P1-P3
- First literacy acquisition in a local language in P1-P3
- A competency-based, continuous assessment model
- A class teacher system

Ugandan educators are fortunate to have such an outstanding policy environment in which to work. Mango Tree’s literacy model was developed specifically to support all of these policy initiatives.

Literacy Competences in the MoES Curriculum

The MoES has classified literacy competences into four key skills: listening, speaking, reading and writing. They have developed four topics that deal directly with these literacy competences: Literacy 1, Literacy 2, News and Oral Literature.

Because the Ugandan curriculum uses an integrated, thematic approach, the children should also be working on literacy competences in all the other topic areas, like mathematics and religious education, but for our purposes we will only examine how the four topics relate to Mango Tree’s literacy model.

The table below outlines the MoES guidelines on instruction in the literacy competences on a weekly basis:

<table>
<thead>
<tr>

</tr>
<tr>
<td>News</td>
<td>Speaking (and Listening)</td>
<td>3</td>
</tr>
<tr>
<td>Oral Literature</td>

</tr>
</tbody>
</table>
For Mango Tree’s integrated instructional model to work, we require a daily lesson in bottom-up, phonics instruction. Systematic phonics instruction is currently not an explicit part of the MoES curriculum, although it is mentioned as a teaching strategy. Because of this, we have altered the MoES lesson timetable slightly. We have kept all the MoES competences, but have integrated the listening and speaking competences into our two top-down literacy lessons. Here is a table that outlines Mango Tree’s instructional model:

Note that we’ve included the 5 Big Ideas in our lesson plan model since they form the foundation of our teaching approach.
Mango Tree's Literacy Model and the MoES Curriculum

**Thematic Competences**

Along with competences in reading, writing, listening and speaking, the MoES curriculum lists competences pupils should attain that relate to the theme and sub-theme that learners are studying in any given week. For example, a competence that pupils are expected to master during the week when “Our Body” is the theme is “Naming parts of the body.” Our teacher’s guide lists these thematic competences in a separate table each week to ensure that teachers integrate them into their literacy lessons.

**Sample Lesson Templates**

This teacher’s guide provides sample lesson templates for all the lessons you will need to teach. They are found in the “How to Teach” section of the teacher’s guide. The templates use the format recommended by the MoES. The templates ease teachers’ planning, thus freeing up more time to focus on pupil instruction.

**The Weekly Timetable**

The Mango Tree Literacy Model requires a minimum of 90 minutes – or 3 thirty minute lessons – per day to be effective. The timetables on the following page show you how to schedule your literacy lessons in P1 and P2.

The MoES Guidelines on Continuous Assessment

Introduction to Continuous Assessment

The MoES is moving away from a policy of terminal assessment and toward a continuous assessment model. The MoES recognizes that the best way to assess pupils is continuously. Children can easily fall behind academically, especially in the early primary grades. A continuous assessment model helps teachers identify and support pupils who are not keeping up with the curriculum, leading to reduced drop-out rates.

Research shows that young children who don’t acquire a strong foundation in reading and writing early on find it very difficult to catch up later. This is sometimes called “The Matthew Effect” referring to the text in the Book of Matthew that says in effect that “the rich get richer and the poor get poorer.” It’s the same with literacy. The pupils who master reading early on will continue to make positive academic gains while the pupils who lag behind in reading and writing just grow further behind as their schooling continues. Therefore, it’s important that teachers monitor pupils’ performance closely in early primary and intervene to assist pupils who are not meeting the literacy competences defined by the MoES.

But a continuous assessment model is challenging for teachers with large classes. Keeping track of the individual performance of over 100 pupils is not easy. Mango Tree has designed the Continuous Assessment Monitoring Form (or CAM Form) to help teachers.

The Continuous Assessment Monitoring Form

The teacher is expected to use the CAM Form during the three literacy lessons every day to track individual pupil performance. Assessment activities are built into every lesson. They are the “You do” in the “I do. We do. You do.” strategy that all our lessons employ. We suggest that teachers select about 5 pupils in each lesson to demonstrate their competence. This means for Story Reading Time, for example, the teacher can assess about 25 pupils per week or 100 pupils per month.

A CAM Form is provided for each of the three academic terms in P1 and P2. Teachers must make enough photocopies of the CAM Form template so that there is a line for every pupil in the class. Below is sample CAM Form with more details about its design:
# How to Use the CAM Form

## The Continuous Assessment Monitoring (CAM) Form

You are expected to use the CAM Form every day during your literacy lessons to track individual pupil’s progress in attaining the competences set out for the term. A CAM Form template is provided for each of the three terms of the school year in this teacher’s guide. You will need to make enough copies so that all your pupils are listed on the form. Below you will find more information about the layout of the CAM Form and how to use it:

### The CAM Form is organized by lesson so that you can easily identify the competences to assess.

### The letters, R, W, L and S at the top of the form refer to the 4 key literacy competences: Reading, Writing, Listening and Speaking.

### The competences listed here can also be found in the Key Literacy Competences tables at the beginning of each Term.

### This column is for writing the names of your pupils.

### This column is for assigning numbers to your pupils.

The bold horizontal lines divide pupils into groups of 5. This allows you to assess 5 pupils during a given lesson.

Each individual box can be divided into 4 smaller boxes so that you can assess pupils multiple times.

This is one box enlarged which shows 3 separate assessments by the teacher.

## Use the following symbols in the CAM Form:

- + bër atëk / superior performance / exceeds the defined competence
- ✓ bërër / satisfactory performance / demonstrates the defined competence
- o amïtto akönyä / needs more work / has not yet mastered the defined competence

Pupils who receive an o assessment should be assessed again later in the term to see if there has been improvement.
In addition to the CAM Form, the teacher’s guide gives other suggestions for continuous assessment each week that include classroom games and other fun, participatory activities.

**End-of-Term Assessment**

Although our focus is on daily and weekly assessment of pupils, we also provide teachers with end-of-term assessment tools they can use to provide additional data on pupil or classroom performance. Teachers can decide to assess all the pupils in their class using these tools if they want more data on individual performance. They can also use the tools to randomly sample a percentage of pupils to give them data on general class performance in specific competences.

**Parent Report Cards**

We provide teachers with Parent Report Cards using the format suggested by the MoES. The literacy competences on the report card are the very same competences found in the CAM Form and the weekly teacher’s guide lesson planning pages. Sample report cards are found at the end of each term next to the CAM Form.

**Beyond the Classroom: Parent, School and Community Involvement**

**Involving parents in their children’s literacy learning**

The parent report card is only one way that we involve parents in the literacy learning process. Each term schools that use our model are expected to organize one parent involvement activity each term. Although each school plans and implements their own parent meetings, we do have certain expectations for what will take place. Here is a brief overview of the termly parent trainings:

- **Term 1: Parent Orientation Meeting**
  - Parents receive a general orientation to local language literacy using Mango Tree’s *Literacy Awareness Chart Set* that outlines 7 key messages for parents
  - Parents are given a copy of the *Parent Report Card* and trained in how to read and interpret it
  - Teachers introduce the *Take a Book Home Activity* and set guidelines with parents for storybooks going home with pupils

---

*Mango Tree's Literacy Model and the MoES Curriculum*
Mango Tree's Literacy Model and the MoES Curriculum

• **Term 2: Education Week**
  - Parents have the opportunity to visit the school and observe classes in session over the course of a week
  - Parents have one-on-one meetings with their child’s class teacher
  - Teachers share our *Parent Assessment Tool* with parents individually
  - At the end of the week parents are invited to attend a meeting to follow up issues discussed in Term 1 and the Parent Assessment Tool is distributed to more parents

• **Term 3: Literacy Recognition Day**
  - At the end of the academic year the school holds an academic recognition day where pupils demonstrate what they’ve learned and are awarded prizes for a variety of literacy and other academic achievements

*Take a Book Home Activity*

Pupils begin taking storybooks and primers home to read each week beginning in the middle of the first term. This continues through the remainder of the year. Each school creates different systems for making this happen but encouraging reading at home is an important part of our model. Research shows that pupils who are exposed to reading at home make significantly higher gains in reading fluency over the course of an academic year. Therefore, we are trying to introduce the practice of independent reading at home to parents in our participating schools.

*Parent Assessment Tool*

The Parent Assessment Tool is another means of involving parents in their children’s literacy learning. The tool, modelled after one developed in India and also used by UWEZO, is a simple way for parents to assess their pupils in basic reading skills. We introduce the tool in the second term during Education Week. The tool has 4 parts: 1.) letter name knowledge; 2.) familiar word reading; 3.) reading fluency test and 4.) reading comprehension test. On the following page there is a sample of the test:
What parents are expected to contribute

Parents must appreciate that they also need to support their pupils while at school. At the orientation meeting during the first term and at the beginning of each term parents are given a specific number of exercise books and pencils that they are required to contribute each term. At most schools a simple book bag is also required before pupils can take books home. Apart from the monetary contributions, teachers and coordinating centre tutors also talk with parents about how they can support their children's literacy development by reading with them, assessing progress at home and talking with pupils about what they are learning at school each day.
School Management Issues

Our model also requires contributions by the school administration. Head teachers and school management chairperson attend an orientation in November if they are interested in participating in the program. School commitments are outlined at that meeting and the head teacher and school management chairperson must sign a contract if they want their school to participate. The contributions outlined in the contract include the following:

- Classrooms must have good security, i.e. lockable doors and windows
- Provision of desks for all the learners
- Provision of a lockable cupboard in at least one of the two classrooms for instructional materials storage
- Selection of the best early primary teachers to participate in the program
- Budget for adequate chalk, manila and markers for teachers per term (amounts are specified based on school enrolment)
- Organize and implement termly parent meetings for early primary classes

Head teachers also participate in a 2-day training workshop during the first term in which they learn the basics of our model and are given specific monitoring tasks to undertake each term.

Community Involvement

We have signed MoUs with all of the districts in which we participate. We align our program objectives with the district development plans for each district. We share our annual work plans with district education offices and report our annual financial contributions to the planning departments. School inspectors from each of the districts also participate in our Project Advisory Committee.

The Project Advisory Committee or PAC meets twice a year to review progress toward program objectives and allows for two-way communication of plans for the coming period. The members of the PAC include all our implementing partners and other literacy stakeholders in the Lango Sub-region. We try to align these biannual PAC meetings to our reporting schedule so that stakeholders can have input on our reporting.
Language Board Involvement

The Lango Language Board (LLB) is one of our key implementing partners. They have provided important technical assistance in assuring that all our instructional materials are aligned to the orthography.

They also provide lexical coining of new words that are required to implement the thematic curriculum. For example, there was no word in Leblango for “sentence,” an important concept pupils need to understand beginning in P1 Term 1.

The LLB also does its own community outreach activities that support our messages to parents about the importance of local language instruction in primary schools.

Summary of our Outreach Beyond the Classroom

We recognize that our literacy model needs to work synergistically with parents, education administrators and the other literacy stakeholders in the Lango Sub-region and we do all we can to play an active role in ensuring that early primary teachers like yourself get all the support they require to provide effective literacy instruction to their pupils.

If you have suggestions for how we can do more to improve delivery of quality literacy education to pupils, don’t hesitate to contact us.
How to Teach
Introduction

Story Reading Time has three types of lessons:

1. **The Primer Story Lessons:**
   - These three lessons are taught on **Monday, Tuesday and Wednesday** throughout the term.
   - “Primer Story” refers to the short story in the pupils’ primer.

2. **The Class Story Lessons:**
   - These two lessons are taught on **Thursday and Friday** most weeks of the term.
   - “Class Story” refers to a story that the learners compose with help from the teacher who writes it on the chalkboard. The story is composed during the Thursday lesson and further developed in the Friday lesson.
   - The Friday Class Story Template changes in Term 3 to focus more on decoding unfamiliar text.

3. **The Reader Story Lessons:**
   - These two lessons are taught on **Thursday and Friday** one to three times during the term.
   - “Reader Story” refers to the story found in the supplemental storybook that is provided alongside the primer as part of the basic set of pupil instruction books.

Lesson Plan Templates

Here is an overview of the eight lesson plan templates for Story Reading Time:

- Lesson Template 1: Introducing the Primer Story (Monday)
- Lesson Template 2: Story, Sight Words and Vocabulary (Tuesday)
- Lesson Template 3: Using the Primers (Wednesday)
- Lesson Template 4: Writing the Class Story (Thursday)
- Lesson Template 5: Developing the Class Story - Terms 1-2 (Friday)
- Lesson Template 6: The Class Story and Decoding Unfamiliar Text - Term 3 (Friday)
- Lesson Template 7: Introducing the Reader (Thursday)
- Lesson Template 8: The Reader Story Continued (Friday)
Lesson Template 1: Introducing the Primer Story (Monday)

Competences
- The learners will read a short story with fluency.
- The learners will demonstrate comprehension of the story and sub-theme by answering questions.

Methods
- Whole group reading
- Small group reading
- Individual reading
- Comprehension questions

Instructional Materials
- The keyword picture drawn on the chalkboard in advance.
- The Primer Story written on the chalkboard in advance.
- A long pointer for following the text while reading the story on the chalkboard.
- Charts or other instructional materials that help you develop ideas related to the week’s sub-theme (optional).

Reading the Primer Story
When reading the story aloud, always hold a long pointer and move it underneath the words as you read. Be sure to read smoothly and naturally as the pointer moves smoothly under the words.

Correcting Mistakes
When individual learners come up to read the primer story at the end of the lesson do NOT correct pupils when they make a mistake IF they retain the correct meaning of the sentence. For example, if the sentence says, “The big white cloud floated through the sky,” and the child reads, “The big puffy cloud floated through the air,” you should ignore the mistake. In this lesson the focus is on fluency and comprehension which the child has demonstrated.

| 3 min. | I. | **Song and Keyword**  
• Sing the *Story Reading Time Song* to signal the beginning of the lesson.  
• Show the learners the picture of the keyword written on the chalkboard.  
• Ask the learners if they can identify the picture. (If the learners don’t identify the keyword after 2-3 attempts, tell them the keyword.) | • Learners sing the *Story Reading Time Song* with the teacher.  
• Learners look at the picture of the keyword and try to identify it. |
| 5 min. | II. | **Teacher Reads the Story Alone**  
• Tell the learners that you will read the story aloud to them. They should listen carefully for the keyword.  
• Read the story a second time. This time tell the learners to clap when they hear the keyword.  
• You can read the story a third time if you feel the pupils need to hear it again before proceeding to Step III. | • Learners listen to the teacher as she reads the primer story on the chalkboard.  
• They listen carefully and clap when they hear the keyword read by the teacher. |
| 5 min. | III. | **Teacher Reads the Story with All the Learners**  
• Read the story 2-3 more times with all the learners joining in.  
• Remember to read smoothly and naturally.  
• When the learners are beginning to become confident in reading along with you, continue to Step IV. | • Learners read along with the teacher as she reads aloud the primer story. |
| 5 min. | IV. | **Teacher Reads the Story with Selected Learners**  
• Continue reading the story aloud but ask small groups to read together with you. | • Selected learners read along with the teacher as she reads aloud the primer story. |
| 5 min. | V. | **Reading Fluency Assessment**  
• Next, hand the pointer to an individual learner you want to assess and have her read the story aloud on her own.  
• Praise the learner for her attempt.  
• If a child becomes flustered and cannot continue say, “Okay everybody let’s help (Child’s Name) read the story,” and lead the whole group in finishing the story. Thank the child for trying.  
• Do this with about 2-5 pupils, as time permits. | • Individual learners read the primer story independently.  
• Other learners listen to their peers as they read the story. |

### A few notes on Lesson Template 1

You can select your own *Story Reading Time Song*. The important thing is that it is the same song every day. It signals that Story Reading Time is beginning. (You should also select special songs for the other local language literacy lessons as well.)

In Step II where learners clap their hands when they hear the keyword, you can vary this from week to week by having them stomp their feet, raise their hands or do another activity.

Always read the story together with the pupils until Step V when individual pupils read independently. The pupils need to hear your voice clearly, especially on Monday when the story is still very new.

It may be challenging for pupils to read independently on Monday, especially in Term 1. If so, still select individual pupils to come up and use the pointer but have selected pupils or the whole class read with the pupil.
Lesson Template 2: Story, Sight Words and Vocabulary (Tuesday)

Competences

• The learners will retell a story from memory.
• The learners will read a short story with fluency.
• The learners will identify and read sight words.
• The learners will use new and existing vocabulary words in a meaningful way.

Methods

• Whole group reading
• Small group reading
• Individual reading
• Sight word activities
• Vocabulary development activities

Instructional Materials

• The keyword picture drawn on the chalkboard in advance.
• The Primer Story written on the chalkboard in advance.
• A long pointer for following the text while reading the story on the chalkboard.
• Flashcards with the identified sight words for the week. (The cards should be about 10x25 cm. Each card has a new or review sight words from the primer story written on it in clear, bold handwriting. Directions for making sight word flashcards are found in the Orientation Week of the teacher’s guide.)
• Charts or other instructional materials for developing pupils vocabulary (optional).

How to Teach: Story Reading Time

Drilling Sight Words

Our experience shows us that pupils learn to identify sight words very quickly BUT they also forget them just as quickly.

You must drill sight words many many times before pupils will remember them. This means reviewing sight words from previous weeks as well.

You can also add sight word drills to other aspects of your daily routine. For example, you can tell pupils they cannot be dismissed until they read 5 sight words correctly. Make sure your sight word flashcards are always nearby in case you have time for extra practice.

When it comes to learning sight words, “Practice makes perfect,” is the best advice we can give.

Lesson Template 3: Using the Primers
(Wednesday)

Competences
- The learners will retell a story from memory.
- The learners will read a short story from the primer with fluency.
- The learners will identify and read sight words.
- The learners will use new and existing vocabulary words in a meaningful way.

Methods
- Whole group reading
- Small group reading
- Individual reading
- Sight word activities
- Vocabulary development activities

Instructional Materials
- The pupil primers (one per pupil if possible)
- Sight word flashcards
- The keyword picture drawn on the chalkboard in advance.
- The Primer Story written on the chalkboard in advance.
- A long pointer for following the text while reading the story on the chalkboard.

Print Awareness
The Wednesday Story Reading Time lesson is similar to the Tuesday SRT lesson except that on Wednesday each pupil is given a primer from which to read.

Reading from the primer is very important. This is an opportunity for pupils to be exposed to machine-made print. Book text is very different from handwritten, teacher text.

A child in early primary actually has to master four alphabets! The upper and lower case letters are two sets of symbols that represent the same letter sound. The alphabet letters found in book print and handwritten print are two more alphabets children must master. Pupils need exposure to all four sets of symbols.

As the teacher, you need to help guide your pupils, pointing out how the four different ways of representing a letter are similar and how they are different.

How to Teach: Story Reading Time

Developing Vocabulary and Sentence Awareness

In today's lesson you give pupils vocabulary words and ask them to use them in a sentence. (See Step VI in the above lesson template.) This activity serves two purposes. First, it is helping you to assess pupils' vocabulary knowledge. If a pupil can correctly use a word in a sentence, that indicates she understands the word.

The second purpose of the activity is to get pupils to use sentences. Just as we want pupils in P1 to become familiar with the concepts of a letter and a word, we also want them to know and understand what a sentence is. This knowledge will grow over time as they get used to hearing sentences in class.

If you give a pupil a vocabulary word like "angry" and the pupil responds, "Mother is angry," encourage the pupil to make the sentences longer so that we really understand what the word angry means. A better sentence would be, "Mother is angry because she tore her dress." This helps you as the teacher to see the pupil really understands the meaning of the word.

If you give a pupil a vocabulary word to use in a sentence and they respond with a sentence fragment, you should respond like this, “Thanks, Betty. I can see you understand the meaning of the word, but your sentence isn’t finished yet. Let me restate your sentence so that it is complete.”

Don’t worry about explaining the complexities of complete and incomplete sentences in P1. The important thing is that pupils get used to hearing the word “sentence” (“centen” in Leblango) used alongside many examples.
How to Teach: Story Reading Time

Lesson Template 4: Writing the Class Story
(Thursday)

Competences

- The learners will compose a story together with the teacher that has a beginning, a middle and an ending.
- The learners will compose a fiction story together with the teacher that includes characters, setting and an action.
- The learners will compose a non-fiction story together with the teacher that includes a thesis sentence, supporting sentences and a summarizing sentence.
- The learners will read the story with fluency.

Methods

- Role plays or class discussions
- Whole group story composition
- Whole group reading
- Small group and individual reading

Instructional Materials

- The keyword picture drawn on the chalkboard in advance.

Here is an example of what should be on the chalkboard when you begin the Class Story Lesson:

Writing a Fiction Story

When writing a fiction story with learners you want them to be able to identify the characters, setting and action of the story. After discussing the action of the story the learners should be able to determine the beginning, middle and ending of the story.

Writing a Non-fiction Story

When writing a non-fiction story with learners you want to help them compose a thesis sentence. Once a good thesis sentence is established, the pupils should be able to write several supporting sentences. Finally, with your help they should compose a summary sentence to conclude the non-fiction text.

## Writing the Class Story: NON-FICTION

- Tell learners that they will be composing a non-fiction story. Therefore, the story should be based on facts they know are true.
- Introduce the topic for discussion by either presenting learners with the thesis sentence or by developing a thesis sentence together as a class.
- Once the thesis sentence has been established have a general class discussion considering facts they know that support the thesis sentence. As these facts emerge compose 2-3 supporting sentences with your class.
- Finally, conclude your non-fiction story by restating the thesis sentence in a new way. This is called the summary sentence.

## Reading the Class Story - Whole Class

- Read the full Class Story aloud to the learners 1-2 times while they listen.
- Correct any awkward places in the story.
- Read the story 2-3 more times while all the learners read along with you.

## Reading the Class Story - Small Groups and Individuals

- Next have small groups read the Class Story with you.
- Finally have individuals read the Class Story aloud on their own.

## Teaching Tips for doing a Class Story Starter for a FICTION STORY

- Tell learners that they will be creating a fiction story by acting it out in front of the class.
- Ask for volunteers to be the characters in the fiction story. Tell each pupil a little about their character so that they can act it well.
- Describe the setting to the learners. Through your words transform your classroom into a forest, a grandmother's compound or a village market.
- Explain the action that is going to take place to your learners. Have the volunteers act out the story under your guidance.
- Use simple props to bring the setting to life and help learners act out the story more realistically.

## Teaching Tips for doing a Class Story Starter for a NON-FICTION STORY

- It is more difficult to develop a Story Starter for a non-fiction story. Because a non-fiction story is based on facts, the important thing is to support your learners in gathering all the knowledge they have about the particular topic for the week through a lively class discussion. As learners share what they know you can help them separate facts from opinions, beliefs and rumors.
Lesson Template 5: Developing the Class Story  
(Friday - Terms 1-2)

Competences
• The learners will retell a story from memory.
• The learners will read a short story with fluency.
• The learners will answer comprehension questions.
• The learners will identify and read sight words.
• The learners will use new and existing vocabulary words in a meaningful way.

Methods
• Whole group reading
• Small group reading
• Individual reading
• Sight word activities
• Vocabulary development activities

Instructional Materials
• The keyword picture drawn on the chalkboard in advance.
• The Class Story written in advance on the chalkboard. (This story should have been copied into the teacher's guide after the Class Story lesson on Thursday.)
• Sight word flashcards

- Ask a learner to read the keyword.  
- Have learners briefly retell the Class Story they composed the previous day. Ask follow up comprehension questions as needed. |  
- Learners sing the *Story Reading Time Song* with the teacher.  
- Learners retell the Class Story and answer comprehension questions. |
| 5 min. | II. | **Teacher Reads Story Alone and with Learners**  
- Tell the learners that you will read the story aloud to them while they listen carefully.  
- After reading the story aloud, ask the pupils to read along with you 2-3 times. |  
- Learners listen to the teacher as she reads the primer story on the chalkboard.  
- Learners read the story with fluency. |
| 2 min. | III. | **Identifying Sight Words - the Keyword**  
- Erase the keyword from the story. Make an underline where the word was.  
- Read the story together again and let the learners say the word that is missing.  
- Write the missing word in its place again on the line. Learn the word as a sight word. |  
- Learners read the story and identify the missing keyword. |

- Continue until the learners know how to read all the sight words at first glance. |  
- Learners identify and read words by sight. |
| 5 min. | VI. | **Sight Word Drills - Small Groups and Individuals**  
- Next, have small groups and individuals drill the sight words with the flash cards.  
- If time permits use the sight word flash cards from this week and previous weeks to drill more sight words. |  
- Learners identify and read words by sight. |
| 5 min. | VII. | **Vocabulary Development**  
- Complete the lesson by developing the learners’ vocabulary.  
- Discuss words in the story or in the sub-theme the learners may not understand. |  
- Learners develop their vocabulary through discussion. |
Lesson Template 6: Developing the Class Story and Reading Unfamiliar Text (Friday – Term 3)

Competences
- The learners will retell a story from memory.
- The learners will read a short story with fluency.
- The learners will read unfamiliar sentences using decoding skills.

Methods
- Whole group reading
- Small group and individual reading

Instructional Materials
- The Class Story written in advance on the chalkboard. (This story should have been copied into the teacher’s guide after the Thursday Class Story lesson or left on the board overnight.)
- The list of sentences for decoding practice. (You will have to compose at least 3 of these sentences each week. The sentences should only contain words with the letters the pupils have already been introduced to in P1 or P2.)

Lesson Template 7: Introducing the Reader  
(Thursday)

Competences
• The learners will listen attentively to the Mango Tree Storybook.
• The learners will demonstrate how to handle a book properly in the classroom and at home.
• The learners will identify the title of the book.
• The learners will identify the author and illustrator of the book and describe their role in the creation of the book.
• The learners will answer comprehension questions related to the story.
• The learners will retell the story with help from the teacher.
• The learners will read the book independently, both in the classroom and at home.

Methods
• Teacher reading aloud to the class
• Comprehension questions
• Whole class retelling the story

Instructional Materials
• Copies of the Mango Tree Storybook for the term for each pupil.

Note to teachers:
Beginning in about the 6th week of Term 1 (after the parent orientation meeting) learners should start taking the Mango Tree Storybook or primer home on a regular basis to read with their parents. More information about the Take a Book Home Activity can be found after Lesson Template 8.

Mango Tree Storybooks
Along with a Pupil Primer for each term, we provide a Mango Tree Storybook. The purpose of the storybook is to provide the pupils with an opportunity to read a real book for pleasure. The text in the Mango Tree Storybooks are at a reading level that is appropriate for the pupils’ ability level. The stories are fun and interesting.

The Term 1 reader has almost no text. Pupils look at the illustrations carefully and tell the story based on what they see. In Term 2 and Term 3 the storybooks have more text, but use repetition and illustrations to make it easy for the pupils to read the books independently.

**Taking Books Home**

After your pupils have had practice reading the Mango Tree Storybook in class, the pupils should take the book home over the weekend to read to parents and other members of the family.

Taking a school book home is a big responsibility for a P1 child and you need to prepare them for this activity. Being able to care for other people’s property is an important life skill that is featured in the MoES curriculum. Therefore, taking time from your lessons to prepare pupils for this activity is part of your responsibility to fulfill the curriculum.

Here are some ideas for preparing your pupils to take a book home and making this a successful learning activity:

- Begin by helping pupils identify the many ways a book might get damaged or lost over the weekend.
- Next, help the pupils make a plan for how to avoid these risks.
- Pupils should identify the real steps they will take to keep the book safe while they are walking to and from school and how to keep the book safe once it reaches their home.
- Help pupils understand and appreciate the short and long-term consequences of losing classroom books. Be clear with your pupils about what will happen to pupils who damage or lose a book. (Possible punishments: They have to do an extra work task at school related to caring for school property. They do not get to take a book home next time. The head teacher will contact their parents and ask for a small sum [500/=] to replace the book.)
- Make a simple contract with your pupils and have them sign it before they take the book home on Friday. You can even write the contract on the chalkboard (*I promise to take this book home and read it to my family. I promise to bring the book back to school safely on Monday.* ) and have each child write their name on the chalkboard as they depart on Friday. Be sure not to erase the chalkboard over the weekend!
- Involve the head teacher, deputy head teacher or a member of the school management committee the first time pupils take a book home. Have this important person give a short talk to your class about the importance of taking books home to read and bringing them back safely.
- For pupils who don’t have a book bag, provide them with a plastic kaveera to carry the book home.
- First thing on Monday morning have the pupils return their books to you one by one. Examine the books carefully for any damage. Check their names off a list you keep in your lesson plan book using our grading system: BA (bër atêk), BB (beber) and AA (amïtto akönyä).

The first time you send books home with pupils should ideally be immediately after you have held the P1 Parents’ Orientation which is scheduled for the middle of Term 1. After this you should send a book home with pupils on a regular basis, at least twice a month or six times during a full term.
How to Teach: Creative Writing Time - Term 1-2

Introduction

Creative Writing Time (CWT) is scheduled every day immediately after Story Reading Time. Creative Writing Time uses a top-down approach to developing pupils' writing competences. The focus is not on perfect handwriting or correct spelling. (These skills are developed in another lesson.) The primary objective for Creative Writing Time is to encourage children to compose their own stories and write them in any way they can, as best they can.

In addition, creative writing has a component of developing pupils’ speaking and listening skills. Every day, about five pupils read the stories they’ve written aloud to the class. The rest of the class listens to the stories and responds with questions and comments.

The Lesson Template for Creative Writing Time: Terms 1-2

There is only one template for Creative Writing Time in Terms 1 and 2. You should teach this lesson every day of the week.

Even though there is only one template, it is important that each day you give pupils new ideas and suggestions for writing a story about the keyword. As you talk to pupils encourage them to write their own stories. Try to link the keyword to real life experiences pupils may have had, as well as to the sub-theme for the week. Praise pupils who demonstrate that they have used their own ideas to write a story.

As the school year progresses, more and more pupils will become comfortable writing their own stories, incorporating the concepts of character, setting and action that they are learning during Class Story Lessons.

In addition to developing pupils' ability to creatively compose a story, the teacher needs to gradually develop pupils' ability to write using words and sentences. Some pupils will independently begin using words (invented or real). In Term 2 pupils will be introduced to the decoding skills they need to spell words. We expect that by the middle of Term 2 pupils should be labeling some of the pictures in their stories with words. The words may not be spelled correctly, but that is secondary at this point.

Again, the Creative Writing Template does not specifically indicate when these gradual developments in pupils’ writing will happen. It is you, the teacher, to introduce them to pupils either one-on-one or as a whole class. In Term 3 a new set of Creative Writing templates will be introduced to focus on competences related to sentence writing.
Lesson Template 1: Creative Writing
(30 minutes)

**Competences**
- The learners will use the correct sitting posture and handle the writing instrument properly.
- The learners will use pictures and words to represent a meaningful story.
- The learners will write their surname (Term 1); both names (Term 2).
- The learners will read (share) the story with others while demonstrating creativity, sequencing, meaning and free expression.

**Methods**
- Whole group discussion
- Individual writing
- Sharing stories in small and large groups

**Instructional Materials**
- The keyword and key picture written on the chalkboard in advance
- A slate and chalk for each learner in the class (below is a sample of a completed story about the keyword "olanț" in Term 1 and the keyword "kic" in Term 2.)
- Learner name cards (In Term 2 the cards need to have BOTH names.

**Slates vs. Exercise Books**
During **Term 1** pupils will be writing primarily with slates and chalk during Creative Writing Time. By the middle of Term 1 pupils should begin writing their stories using paper and pencils on Fridays. Collect these writing samples and use them to evaluate your pupils’ progress. Continue using slates on Monday to Thursday.

**Term 2** will look much the same as Term 1: writing on slates from Monday to Thursday and using exercise books and pencils on Friday.

Creative Writing Time Lessons in Term 3

Your pupils have made a lot of progress in their writing skills since the beginning of the year. Here are some writing skills they should have acquired:

- They should now be comfortable writing using a pencil or chalk.
- Pupils should be writing their full name.
- They should be familiar with the shapes of many letters and able to form many letters with ease.
- Pupils should know how to write and spell a growing list of words either by sight or by using decoding skills.

In Term 3 we want to take advantage of all these skills your pupils have acquired to bring them to the next level: writing their own complete sentences. In order to do this Creative Writing Time becomes much more structured in Term 3. Instead of the one lesson template you had in Terms 1-2, you will now have four lesson templates.

Term 3 Lesson Overview

Here is an overview of what the weekly Creative Writing Time lesson cycle will look like during Term 3:

Monday: Modeling Sentence Writing and Handwriting (Template 1)

The teacher models composing a story. She tells the story, draws pictures, labels them and then composes 2-4 sentences that tell the story. Pupils assist the teacher in all these steps. After the sentences are written on the board, pupils copy them with correct handwriting (using the 4 Handwriting Guidelines) in their exercise books.

Tuesday & Thursday: Creative Writing (Template 2)

Pupils write their own stories on slates following the model introduced by the teacher on Monday. The main difference from a Term 2 Creative Writing Lesson is that the pupils will compose 2-3 sentences of their own.
How to Teach: Creative Writing Time - Term 3

**Wednesday: Handwriting, Dictation and Spelling**  
(Template 3)  
This lesson is fully devoted to developing handwriting skills and ensuring that pupils can write their full name with correct spelling and letter formation. It includes a component of spelling and sentence dictation as well.

**Friday: Creative Writing Using the Exercise Book**  
(Template 4)  
This lesson is similar to the Tuesday-Thursday lessons except that you have the learners do their writing in exercise books so that you can collect and assess them.

**Handwriting**

In Term 3 pupils are also ready to begin a more structured handwriting program. Beginning in the third term, you will introduce the 4 Handwriting Guidelines to pupils. The Creative Writing Time lessons on Monday, Wednesday and Friday will have a handwriting focus. During these lessons you will show pupils how to use 4 lines in their exercise books to create the guidelines they are to follow when copying text from the board. This will take effort and patience in the beginning, but will eventually result in improved handwriting by pupils. The names of the 4 Handwriting Guidelines are written in Leblango below:

**The 4 Handwriting Guidelines**

![Diagram showing the guidelines]

As the teacher, you should start using the 4 Handwriting Guidelines at all times on the chalkboard to demonstrate the correct letter formation. This is NOT just for Creative Writing Time. You should also be using the handwriting guidelines during Word Building Time and even in other non-literacy lessons. By the end of Term 3 pupils should be able to use the 4 Handwriting Guidelines whenever they write in their exercise books to form letters and words correctly.
Lesson Template 1: Modeling Sentence Writing and Handwriting (Monday)

Competences

- The learners will use the correct sitting posture and handle the writing instrument properly.
- The learners will listen to the teacher tell a short story.
- The learners will retell the teacher’s model story, demonstrating good comprehension and sequencing.
- The learners will compose sentences based on the teacher’s model story.
- The learners will copy at least one sentence using correct letter formation, punctuation and spelling.
- The learners will write their full name with correct spelling and letter formation.

Methods

- Teacher storytelling
- Pupil retelling
- Composing sentences
- Copying sentences

Instructional Materials

- The model story written on the chalkboard (see sample on the following page)
- Exercise books and pencils for each learner in the class
- Learner name cards with the pupils’ names written using the 4 Handwriting Guidelines

Writing one’s full name in Term 3

We want pupils to complete P1 able to write their full name with correct spelling and letter formation. In Term 1 this competence was a focus during Pre-Reading and Pre-Writing Time. In Term 2 the focus shifted to Creative Writing Time.

Now it is Term 3. We have introduced the 4 Handwriting Guidelines so you need to make new learner name cards that show pupils how to write their names using these guidelines.

The Wednesday lesson provides time for direct instruction in writing one’s name and Friday’s lesson gives you an opportunity to make an assessment. Pupils can practice their name all the other days of the week as well.
Below is a sample of what the chalkboard should look like after the teacher has finished telling the model story on Monday.

Term 3 - Week 1 - Keyword: ananaci

Theme 9 / Sub-theme 9.1: Our Transport / Types and Names of Transport

Model Story Told by Teacher:

Apio and Ocen’s father raises pineapples. When he harvests them he loads them on his bicycle and carries them to Lira to sell at the market. Sometimes he is able to load his bicycle on a lorry and ride the lorry home to the village in the evening.

Preparing the Monday Model Story Lesson

The Monday Creative Writing Time lesson in Term 3 is an “I do” lesson where the teacher models the writing competences he wants his learners to imitate throughout the week. Therefore, as a teacher it is important that your lesson is well prepared.

Begin by composing a simple story using the keyword. The story should be short, related to the week’s sub-theme if possible and easy to illustrate with simple pictures on the chalkboard. In addition you should consider the following:

- The story should be meaningful, well sequenced and creative.
- The illustrations should accurately represent the story you have told.
- Many of the pictures in the story can be labeled with words the learners can spell.
- The sentences you write on the board after telling the story should begin with a capital letter, have the correct punctuation at the end of the sentence and the letters should be formed properly and spelled correctly.
Lesson Template 2: Creative Writing
(Tuesday and Thursday)

Competences
- The learners will use the correct sitting posture and handle the writing instrument properly.
- The learners will use pictures and words to represent a meaningful story.
- The learners will compose 2-4 sentences about their story.
- The learners will write their full name with correct spelling and letter formation.
- The learners will read (or share) the story with others while demonstrating creativity, sequencing, meaning and free expression.

Methods
- Whole group discussion
- Individual writing
- Sharing stories in large and small groups

Instructional Materials
- The keyword written on the chalkboard in advance
- A slate and chalk for each learner in the class
- Learner name cards with the pupils' names written using the 4 Handwriting Guidelines

On the following page there is an example of what a slate should look like on Tuesday or Thursday.
If there is not enough room for the full story on one side of the slate, the pupils should complete their work on the back of the slate.

Lesson Template 3: Handwriting, Dictation and Spelling (Wednesday)

Competences
- The learners will use the correct sitting posture and handle the writing instrument properly.
- The learners will write their full name with correct letter formation and spelling.
- The learners will write a dictated sentence using correct letter formation and spelling.

Methods
- Whole group handwriting instruction
- Individual handwriting practice
- Sentence dictation

Instructional Materials
- Exercise books and pencils
- Learner name cards with the 4 Handwriting Guidelines
- Chalkboard with 4 guidelines for handwriting instruction
- A simple sentence composed by the teacher that uses only letter sounds and words the pupils have learned to-date.

Remember that during this lesson you will use the four guidelines to instruct pupils in correct letter formation of their name and other selected words from the teacher’s guide. Here are the names of the four guidelines in Leblango:

The 4 Handwriting Guidelines

- imalu
- idyere
- ayo
- ipiny

Modeling Correct Capitalization and Punctuation
Remember that whenever you are writing a sentence on the chalkboard you should point out to your pupils that you are capitalizing the first word in a sentence and using the correct punctuation at the end of the sentence. Make sure your pupils not only SEE you model correct sentence formation but also HEAR you telling them the rules for correct sentence formation EVERYDAY.

All Class Correction
As you move around the room observing pupils’ handwriting you may notice particular mistakes that many learners are making. The Wednesday lesson is a good opportunity to address these handwriting problems. Take some time during Step II or Step III to have a “mini-lesson” on the specific handwriting problem you are seeing. It may only take one or two minutes to solve these small handwriting mistakes.
Lesson Template 4: Creative Writing using the Exercise Book (Friday)

Competences
- The learners will use the correct sitting posture and handle the writing instrument properly.
- The learners will use pictures and words to represent a meaningful story.
- The learners will write their full name with correct letter formation and spelling.
- The learners will write at least one sentence about their story.
- The learners will read (or share) their stories with others while demonstrating creativity, sequencing, meaning and free expression.

Methods
- Whole group discussion
- Individual writing
- Sharing stories in large and small groups

Instructional Materials
- The keyword written on the chalkboard in advance
- An exercise book and pencil for each learner in the class
- Learner name cards with the 4 Handwriting Guidelines

Note to teachers:
You may also want to tell the learners NOT to use their name cards on Friday to see what they can do independently.

Assessing Pupils Using the CAM Form
As you assess your pupils’ stories in their exercise books, remember the terminal writing competences we are focusing on in Term 3:
- Using their segmenting skills to spell words correctly (or nearly correctly).
- Writing in full sentences.
- Composing a meaningful story that demonstrates creativity and proper sequencing.
- Capitalizing the first word in a sentence.
- Ending the sentence with the correct punctuation.

Pupils who consistently demonstrate ALL these competences on a regular basis should receive a “+”. Pupils who demonstrate MOST of these competences but with varying consistency should receive a “√”. Pupils who do not demonstrate most of these competences with any consistency should receive a “o”.
Sample Exercise Book

This lesson is very similar to the Tuesday-Thursday lesson except learners will write in their exercise books instead of using slates. You should collect the exercise books at the end of the lesson for assessment. Below is an example of what the exercise book should look like at the end of the Friday lesson:

Correct Writing Posture

Relax the shoulders and neck, and sit up straight. Pupils who hunch down over their papers often experience neck, back, and shoulder pain.

Keep the elbow open at more than 90 degrees. To accommodate this position, pupils who sit in standard classroom desks may need to turn a bit to the side at their desk.

Grip the pen or pencil as lightly as possible. Squeezing too hard not only causes pain in the hand and fingers, but it also can result in a pupil's grip getting too close to the tip of the pencil.

Use the shoulder, rather than the hand or elbow, to move across the page. The greater strength of the shoulder muscles mean that they fatigue less quickly than the wrist and elbow.

Introduction

Pre-Reading and Pre-Writing Time is only taught during P1 Term 1. As the title suggests, these lessons are focused on developing the underlying competences learners need to read and write successfully. According to our timetable, Pre-Reading and Pre-Writing Time is always taught directly after the morning break.

The objectives of Pre-Reading and Pre-Writing Time are:

- To develop learners’ ability to recognize and write their own name.
- To develop learners’ handwriting skills so that they can form letters correctly.
- To develop learners’ listening skills so that they can hear and recognize the different sounds in the language.
- To develop learners’ visual skills so that they can see and recognize the various shapes of letters, syllables and words.

In P1 Terms 2-3 Pre-Reading and Pre-Writing Time will be replaced with Word Building Time, a phonics-based “bottom up” approach to reading and writing instruction that includes some handwriting development.

Lesson Plan Templates for Pre-Reading and Pre-Writing Time

There are two lesson plan templates provided.

- **Lesson Template 1** (Mondays, Wednesday and Fridays) is focused on developing learners’ name writing and reading skills and general handwriting skills.

- **Lesson Template 2** (Tuesdays and Thursdays) is focused on developing learners’ auditory (listening) and visual discrimination skills.
Lesson Template 1: Writing and Reading One’s Name and Beginning Handwriting (M, W and F)

Competences

- The learners will use the correct sitting posture and handle the writing instrument properly.
- The learners will write and read their own surname with correct letter formation and spelling.
- The learners will form different shapes, patterns and letters correctly.

Methods

- Practicing the correct sitting posture and pencil/chalk grip
- Practicing writing one’s name
- Practicing writing shapes and patterns

Instructional Materials

- Slates and chalk for each learner
- Learner name cards for each learner

How to make the learner name card

Step 1: Fold the manila like this:

One manila makes 24 learner name cards.

Step 3: Use a ruler and pencil to provide you with handwriting guidelines just as you do with the sight word flash cards.

Make pencil lines here and here

Step 4: Neatly write the learner’s name on the card with a marker/pencil/pen using the ruled lines. Distribute the learner name cards to your pupils and have them keep them in their desks.

Your learner name card is ready to use!

Lesson Template 2: Auditory and Visual Skill Development (T and Th)

Competences
- The learners will hear, identify and imitate different sounds in Leblango.
- The learners will segment sentences into words and words into syllables.
- The learners will see and distinguish between different pictures, shapes, letters, syllables and words in Leblango.

Methods
- Listening and speaking activities
- Visual puzzles

Instructional Materials
- Pupil Primer (right-hand side of the page)
- Teacher-made charts and picture cards

How to Teach: Pre-Reading and Pre-Writing Time

Listening Skill Activities

Each of the listening skill activities described below should take about 10 minutes to complete. The activities are divided into simpler (for the first six weeks) and more complex (for the second six weeks). The activities are further divided into two basic types of listening skill activities:

1. Sound Identification and Imitation Activities
2. Segmenting Parts of Speech Activities

Each week should include at least one of each type of listening skill activity. Practically, this means that you should plan to do a Sound Identification and Imitation Activity on Tuesday and a Segmenting Parts of Speech Activity on Thursday.

The First 6 Weeks:

Sound Identification and Imitation Activities

Activity 1: Environmental Sounds

Objective: Learners identify different sounds in the environment.

Steps:
• Bring in different real objects that make a sound (a drum, several rocks in a tin, two sticks, a finger piano, and a plastic bottle with a little water in it are a few examples).
• Put the objects in a box or hide them somehow so your learners can’t see them.
• Have the learners listen to the sound the object makes and guess what it is.

You can expand on this activity by imitating other environmental sounds the learners are familiar with, for example the sound of a motorcycle revving up, a clock ticking, a cell phone ringing, someone slashing grass or grinding sim-sim. If the learners can’t figure out the sound by hearing alone, mime the activity with your body.

Activity 2: Animal Sounds

Objective: Learners identify and imitate common animal sounds.

Steps:
• Make the sound of an animal, for example a dog barking.
• Have the learners guess what animal sound you are making.
• After you have modelled this for the learners several times, have them make animal sounds and have the class guess the sound.
How to Teach: Pre-Reading and Pre-Writing Time

Activity 3: Tongue Twisters

Objective: Learners imitate tongue twisters and identify the repeated sound.

Steps:
- Share a tongue twister with your pupils while they listen.
- Have the learners imitate the tongue twister. If it is a long tongue twister, break it up into parts.
- When learners become proficient in imitating the tongue twister ask them to identify the main sound (or sounds) that are repeated.
- Repeat the individual sound and have learners explain what their tongue, teeth, lips and mouth do when they make that sound.

Segmenting Parts of Speech Activities

Activity 1: Active Storytelling

Objective: Learners can hear individual words in a sentence or story that you say aloud.

Steps:
- Think of a descriptive noun or active verb and make up an action to represent that word. For example, with the word “rain” (which is both a noun and a verb) you can make a motion with both hands like rain is coming down. Alternatively, think of a noun or an active verb and think of a simple sound that it makes. For example, a “cat” can make the sound “meow”.
- Make up a story where the word you’ve selected is repeated frequently. Tell learners that each time they hear you say the word they either have to do the action you have shown them (use their hands when they hear the word “rain”) or make the sound you’ve taught them (say the word “meow” when they hear the word cat).
- Tell the story and observe learners ability to identify the word you’ve selected.

Activity 2: Sentence Segmentation

Objective: Learners can identify the individual words in a short 3-4 word sentence.

Steps:
- Tell learners, “A sentence is a group of words put together to make meaning.”

What is a sentence?
The word for “sentence” in Leblango is “centen”. A sentence is a group of words put together to create meaning. A sentence is a basic unit of language. It expresses a complete thought. Each language has a set of rules for how to build sentences using words. A sentence always begins with a capital letter and ends with a full stop, question mark or exclamation mark.

Learners in P1 Term 1 need to become familiar with the word “centen” and hear many examples. They should also be able to segment a sentence into its individual words.
How to Teach: Pre-Reading and Pre-Writing Time

- Have learners repeat the sentence with you, ‘Today is sunny.’
- Now say, “In the sentence ‘Today is sunny’ there are three words: “today,” “is” and “sunny.” (Use your fingers to count each of the words.) Let’s all say the sentence together and count the words with our fingers: "Today is sunny."
- Repeat the above with several more sentences. Keep the sentences very short (3-4 words) and simple.
- As learners get better at this activity let them make up their own sentences to segment.

The Second 6 Weeks: Sound Identification and Imitation Activities

Activity 1: Initial Sound Identification and Imitation

Objective: Learners identify and imitate the first sound in a word.

Steps:
- Say a word slowly emphasizing the first sound, “mmmmaat”. Explain that the first sound in the word “mat” is /m/. Have the learners imitate the /m/ sound. Give several more examples of words that begin with the same sound. Ask your pupils to identify and imitate the sound. Have the learners describe what their mouth, tongue, teeth and lips do to make the sound.
- Introduce new words with different sounds. The teacher always uses the “I do. We do. You do.” methodology. Always have the learners imitate the sound and describe what their mouth, tongue, teeth and lips do to make the new sound.

Activity 2: Initial Sound Identification Game

Objective: Learners identify and imitate the first sound in a word.

Steps:
- Once your learners become proficient with identifying the first sound in a word you can introduce a variation on the previous activity that is played as a game.
- Tell the learners you are going to say 3 words that all begin with the same sound. Learners must identify the beginning sound and imitate it correctly. Tell learners they will score a bonus point if they can then name a new word that begins with the same sound.
How to Teach: Pre-Reading and Pre-Writing Time

Activity 3: Initial Sound “Odd One Out” Game

Objective: Learners identify the word that does not begin with the same sound as the other words.

Steps:
• This is another game that you can play with your learners once they become proficient at Activity 2.
• Explain to your learners that you are going to say three words. They must listen carefully and identify the one word that does not begin with the same sound as the other two. Give them an example: cat, cane and hat. Explain that hat is the “odd one out”. It starts with the /h/ sound whereas cat and cane both begin with the /k/ sound.

Activity 4: End Sound Identification and Imitation

• This activity is done exactly like Activity 1 except that you are now having learners identify and imitate the end sound in a word. If learners show proficiency in this activity you can continue with Activities 2-3 only substituting end sounds.

Segmenting Parts of Speech Activities

Activity 1: Sentence Segmentation Activity

Objective: Learners can identify the individual words in a sentence.

Steps:
• You can continue sentence segmentation activities as outlined in Activity 2 of the First 6 weeks. Make the activity more difficult by giving your learners longer sentences to segment.

Activity 2: Syllable Segmentation Activity

Objective: Learners can identify the number of syllables in common words.

Steps:
• Tell learners, “Sentences are made of words and words are made of syllables. Just like we can count the number of words in a sentence, we can count the number of syllables in a word.”
• Next say, “I’m going to say a word slowly and I want you to listen carefully. ‘o-ko-bo.’”

What is a syllable?

The word for “syllable” in Leblango is “cilabul”.

A syllable is a unit of spoken language. A syllable represents a single uninterrupted sound. A syllable can be made up of either a single vowel (the “a” in the word amam) or a combination of a vowel and one or more consonants (the “mam” in amam). Syllables are sometimes called the building blocks of words.

Teaching pupils to hear and identify a syllable is easy. Here are two simple methods:
1. Ask your pupils to put their hands under their jaws. Say aloud a multi-syllable word. Have the pupils count how many times their jaw drops.
2. Tell pupils you are going to say a word and you will make a clap for each syllable. Say a two syllable word like “owec”. Make a clap for (o-) and a second clap for (-wec). Demonstrate with several more one-, two- and three-syllable words. When pupils begin to understand how to count syllables, let them do it without your help.
How to Teach: Pre-Reading and Pre-Writing Time

- Have learners repeat the word with you, ‘o-ko-bo.’
- Now say, “In the word ‘okobo’ there are three syllables: o-ko-bo (using your fingers to count them off). See how my mouth changes for each syllable?
- Repeat the above with several more multi-syllable words until learners begin to get the hang of it. (See the Note to teachers for more information about teaching syllables to learners in P1.)
- After learners are becoming confident segmenting words with 2-3 syllables, introduce several one syllable words.

Note: Learners will especially enjoy learning how many syllables are in their names.

Note: Don’t worry if learners do not gain full competence in segmenting syllables in Term 1. They will continue to develop this skill in Terms 2-3.

Visual Skill Activities

The Pupil Primer – Term 1

We include a visual skill activity in the pupil primer each week on the right-hand side of the page. In general, you should do one visual skill activity from the primer on Tuesday and one on Thursday. Sometimes, you may complete both the activities on Tuesday. If so, you need to make your own visual skill activities for Thursday.

Although the visual skill activities look different each week, they are actually just modifications of four types of puzzles designed to develop pupils’ ability to see small differences in text. Here are the names we have given to each kind of puzzle and examples from the primer:

Once you understand how these four activities work, you can create your own activities on chart paper or the chalkboard.

Always use the "I do. We do. You do." method when teaching visual skill activities from the primer. Visual activities usually come in sets of 4. This means the first one is for you to demonstrate (I do.) The next two are for doing together with the pupils. (We do.) And the last is for pupils to do independently. (You do.)
Other Fun Visual Skill Activities:

Activity 1: What’s Missing Game

Place 5-6 objects on a table or desk in the front of classroom. The objects should be easy for all the learners to see clearly. Name the objects one at a time from left to right. Then have learners cover their eyes with their hands. Take away one object. Have the learners open their eyes. Can they identify the missing object? Do this several times. Next, when the learners close their eyes, rearrange one of the objects. Have learners open their eyes and describe what has changed. Continue to increase in complexity as learners’ skills improve.

Activity 2: I Spy with My Little Eye

This is a game that builds visual skills while also teaching initial letter sounds. The teacher begins by looking around the classroom and identifying an object that can be easily seen by all the learners, the door, for example. The teacher then says, “I spy with my little eye something that begins with the sound /d/.” The learners look around the room and ask the teacher questions like, “Is it a desk?” “Is it the drum?” “Is it David?” “Is it the dog in the alphabet chart?” When a child finally gets the correct answer, he or she then gets to be the one to select an object.

Activity 3: Find the Hidden Object

The teacher selects a small but easy to recognize object and shows it to the class before they are dismissed for their morning break. A bright green plastic pencil sharpener is one good example. During the break the teacher hides the object in plain sight. It should be in a place where all the learners have the ability to see the object from their seats. But it is best if the object is in an unusual place, above the door or resting on top of the chalkboard for example. When the learners return from break the teacher reminds them of the object and asks them to look around the room to see if they can see it. When they see it, they should not say anything; they should simply raise their hand to show that they have found it. This game can be played every day for a week. After the first day, different learners can be selected to hide the object during break time.
Introduction

Remember the language hierarchy we talked about in the introduction?

• stories or texts
• paragraphs
• sentences
• phrases
• words
• syllables
• letters

At the top we have stories. These are the most meaningful to children. Story Reading Time and Creative Writing Time start with stories and work down to build learners’ literacy competences. These lessons both use a top-down approach to teaching children to read and write. In Word Building Time we use a bottom-up approach. Word Building Time lessons focus on strengthening learners’ competence in identifying letter sounds and syllables.

Word Building Time replaces Pre-Reading and Pre-Writing Time in the timetable. Pupils should now have the basic skills to identify and write individual letter sounds and symbols. Each term we will introduce 8 new letters so that by the end of P1 pupils will know 16 of the letters in the Leblango alphabet. With these letters they will be able to read and write many words. They will learn the balance of the Leblango letters in P2.

The main learning objectives in Word Building Time are:

• To systematically introduce the letters of the Leblango alphabet so that children know the name of the letter, the sound the letter makes and how to write both the capital and small form of the letter correctly.
• To teach children to segment a word, i.e. to hear a word and then say the individual sounds in the word.
• To teach children to blend a word, i.e. to see a word and then sound out the individual letters of the word, blending them together to read the word.
• To drill common syllables and words until they are instantly recognizable to learners.
Lesson Templates for Word Building Time

We provide four lesson templates for Word Building Time:

- **Lesson Template 1**: The Key Letter and Sound (Monday)
- **Lesson Template 2**: The Letter Drill Table (Tuesday)
- **Lesson Template 3**: The Syllable Drill Table (Wednesday and Thursday)
- **Lesson Template 4**: The Spelling Test (Friday)

The Word Building Time lesson templates are designed like a ladder. On Monday you climb the first rung of the ladder. On Tuesday you still step on the first rung, but you climb to the second rung. Each template adds one more rung to the ladder. By Friday, you have climbed very high. This is a good example of our "simple to complex" teaching method. Another name for it is "scaffolding".

If you look at the right-hand page of the pupil primer you can visually see the progression the teacher makes. The Monday lesson covers the four components at the top of the page: the key word, the break-down/build-up chart, the key letter/sound and the letter/sound sign. On Tuesday the teacher reviews these components but goes below the grey line and introduces the letter drill table. On Wednesday and Thursday the syllable drill table is added. On Friday all the content is reviewed and pupils demonstrate the competence they have acquired by taking a spelling test.
Lesson Template 1: The Key Letter and Sound
(Monday)

Competences
- The learners will break down and build up the keyword.
- The learners will say the name of the key letter and imitate the sound that it makes.
- The learners will write the capital and small form of the key letter correctly.

Methods
- Segmenting the keyword using the "break down and build up" table
- Air writing the shape of the key letter.
- Handwriting practice of the key letter using slates and exercise books.
- Body movement (letter sign) for remembering the sound of the key letter.

Instructional Materials
- Slates OR exercise books for all learners
- Chalk OR pencils for all learners
- The chalkboard (A sample of what the chalkboard should look like is found below.)
This sample is taken from the lesson for the keyword mac and key letter C during Term 2. Remember that in Term 3 you will use the 4 Handwriting Guidelines when writing the keyword and key letter.

What is a built word?
A built word is composed of letters your learners know. They can make the sound for each letter and by blending the sounds together they can read the word. We call them “built words” because learners can build (or "de-code") these words on their own.

What is the difference between a built word and a sight word?
A sight word is a word that pupils recognize by its shape. It is learned through continuous drill. The pupil may not know the names of the letters in a sight word. He has learned to read the word through rote memorization.

A built word is one that a pupil can read by sounding out the letters. Over time, built words should become sight words.

Lesson Template 2: The Letter Drill Table
(Tuesday)

Competences

• The learners will break down and build up the keyword.
• The learners will say the name of the key letter and demonstrate the sound that it makes.
• The learners will write the capital and small form of the key letter correctly.
• The learners will blend the known letter sounds to read a variety of one-syllable built words.
• The learners will spell selected built words correctly.

Methods

• Segmenting the keyword using the "break down and build up" table
• Letter drill table
• Blending the sounds to create built words
• Handwriting and spelling practice

Instructional Materials

• Slates OR exercise books for all learners
• Chalk OR pencils for all learners
• The chalkboard (Below is a sample of what the chalkboard should look like by the end of a Tuesday lesson.)

How to Teach: Word Building Time - Terms 2-3

How to teach blending:

An easy way to teach children to blend letters to form words is to play the "say it slow - say it fast" game.

Take the example of the word "mac." The class will first say the individual sounds slowly: "mmm-aaa-c." When the class can say the three sounds confidently in the correct order tell them, "Now say it fast!" Their response should sound something like "m-a-c." After they say it fast, they should try to identify the word the sounds make together.

If they don't get it the first time, try again. "Let's say it slowly: mmm-aaa-c. Now let's say it fast: m-a-c. What word did we make?" Eventually, someone in the class will recognize the word and share it with the others.

Word Building Time Lesson 3 Template
(Wednesday - Thursday)

Competences
- The learners will break down and build up the keyword.
- The learners will say the name of the key letter and demonstrate the sound that it makes.
- The learners will be able to blend the known letter sounds to read a variety of built words.
- The learners will be able to identify the number of syllables in a given built word.
- The learners will be able to spell selected built words correctly.

Methods
- Breaking down and building up the keyword
- Reviewing the sounds of key letters from past weeks
- Blending the sounds to create built words
- Blending syllables to create multi-syllable built words
- Spelling and handwriting practice

Instructional Materials
- Slates and chalk or exercise books and pencils for all learners

How to Teach: Word Building Time - Terms 2-3

Word Building Time Lesson 4 Template (Friday)

Competences
• The learners will break down and build up the keyword.
• The learners will say the name of the key letter and demonstrate the sound that it makes.
• The learners will be able to blend the known letter sounds to read a variety of built words.
• The learners will be able to identify the number of syllables in a given built word.
• The learners will be able to spell selected built words correctly.

Methods
• Breaking down and building up the keyword
• Reviewing the sounds of key letters from past weeks
• Blending the sounds to create built words
• Blending syllables to create multi-syllable built words
• Spelling and handwriting practice

Instructional Materials
• The P1 Primer for all learners
• Individual sheets of exercise paper for taking a spelling test
• Pencils and rubbers for all learners
• The chalkboard (Below is a sample of what the chalkboard should look like by the end of the Friday lesson.)

<td>• Now say a word that can be built from the letter sounds in the drill table on the chalkboard. Ask the learners to touch all the sounds that make up that word. Select a learner to come up and show the correct answer and then write the word on the chalkboard.</td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** There is not enough time to do all 6 letters and 4 built words in the 8 minutes assigned to this game. Just select 2-3 of each.
### Syllable Drill Table Game
- The game with Syllable Drill Table is played exactly the same as the game described above. Say a syllable. Have the learners point to it in their primers. Have pupils come up and show the correct answer. Have them say another syllable in the table until you have covered several of the syllables.
- Then say a word that can be built from two or more syllables and have the learners point to the syllables in their primers. Have a learner demonstrate the correct answer and write the word on the board.

**NOTE:** There is not enough time to do all the syllables and built words in the 8 minutes assigned to this game. Just select 2-3 of each.

### Spelling Test
- Have learners close their primers and distribute individual sheets from an exercise book. Tell learners to write their names at the top of the page.
- Erase any words on the chalkboard.
- Select 3 one-syllable words and 2 multi-syllable words for the spelling test. These **must** be words the learners have learned during the week. Do NOT select new words.
- Say each word aloud normally and then again more slowly. Do this at least twice and allow pupils time to write the word. Move around the room checking on their progress.
- When the test is completed, collect their tests for assessment.
- If time permits, have learners come up and spell the words on the chalkboard.

### Scoring the Spelling Test
Mark your pupils’ spelling test and return it to them on Monday. Use the grading system established for the Parent Report Cards.

- **BA** = All 5 words spelled correctly
- **BB** = 3-4 words spelled correctly
- **AA** = 0-2 words spelled correctly

Ask all pupils who misspelled a word to rewrite the word correctly 3-5 times on their spelling test and return it to you.

Comprehension Questions
Each week we give a set of comprehension questions for the Primer Story text. The first two questions have clear answers. They test comprehension of the text. The other questions are open ended and help to link the story to the theme and sub-theme.

Sight Words
Each week we give you a list of sight words to teach your pupils. These words are taken from the Primer Story text. The number of sight words taught each week increases as the year progresses.

Vocabulary
Here we provide you with important vocabulary terms related to the week’s sub-theme. There will be opportunities during the lessons to talk about these words with your pupils and find out what words they know and what words need explanation.

Competences
Reading
- Identify the letters I, O, K, N, C, and M. Know their names and the sounds that they make.
- Identify the number of syllables in a word.
- Blend and segment words using I, O, K, N, C, and M.

Writing
- Use words and pictures to write a story about the keyword.
- Write the capital and small letter I correctly.
- Complete the handwriting patterns for the week.
- Write both names correctly.

Reading and Writing Competences
This is a list of the reading and writing competences that you are to focus on this week. Suggestions for how to assess these competences can be found on the following page in the box named Continuous Assessment Activities. The lesson templates in the How to Teach section also include daily assessment of reading and writing. We also provide a Continuous Assessment Monitoring (CAM) Form for tracking individual pupils progress in attaining these literacy competences.
Explaining The Teacher’s Guide Format

Letter Signs
Letter Signs begin with the Word-Building Time lesson in Term 2. Each new sound/letter that the pupils learn is linked to an action that relates to the keyword. This helps pupils remember the letter sound. A short description of how to do the action that represents the key letter of the week is found here.

Child Friendly Activities
In this box you will find a fun language activity for your pupils that relates to the week’s sub-theme or the keyword. Activities vary from songs, to riddles, to tongue twisters, to poems, to proverbs. Sometimes they will be part of a literacy lesson. Sometimes you can use them in a Music or Free Activity lessons.

Listening and Speaking Competences
This is a list of the listening and speaking competences for the week. Suggestions for how you can assess these competences can be found on the next page in the box called Continuous Assessment Activities. The lesson templates in the How to Teach section also include daily assessment of listening and speaking. The CAM Form also has spaces for tracking pupil performance in listening and speaking competences.

Thematic Competence
In addition to the literacy competences, we also include a thematic competence for the week.

Sub-theme 7.3: Living Together in the Community

Listening
- Answer comprehension questions during Story Reading Time.
- Recognize and identify other words with the I sound.

Speaking
- Talk about issues related to the week’s sub-theme with fluency, accuracy and comprehension.
- Use vocabulary words related to the week’s sub-theme with fluency, accuracy and comprehension.
- Tell an original story to the whole class that shows creativity, meaning, sequencing and fluency.

Thematic competences
Identify community rules for living together in peace and harmony.

Listening and Speaking Competences

Continuous Assessment Activities
In this column the teacher will find suggestions for how to assess the competences that the pupils are learning during the week. It is not meant to be a comprehensive list. Instead, it offers a range of different ideas to help teachers obtain a better picture of how their learners are progressing on reading, writing, listening and speaking competences.

Term 2 Week 9

How to Make and Use a Memory Game with Cards

The object of a memory game is to use your memory to match two like objects. The easiest memory game matches two objects that are exactly alike, a cow and a cow for example. As your pupils develop their understanding and skill in playing memory games, you can make the matches more difficult. For example, a picture of a cow can be matched with the word ‘cow’ or a cow is matched with a container of milk.

The rules work like this:
- Players shuffle the memory game cards and lay them out. (It’s best to lay the cards out in a grid form, but young players may find this difficult. You can help them by making the grid for them.)
- Players take turns turning over two cards. The cards should be fully turned over so that everyone can see what is on each card and its location.
- If the cards match, the player takes the cards and keeps them in a pile. The player also gets to continue playing.
- If the cards do not match, the player turns them back over, trying to keep the cards in the same place. The next player in the circle then gets a turn.
- Play continues around the circle with each player taking a turn. The game is over when all the matches have been found. The winner is the player with the most matches.

Instructional Materials
This section features a different instructional material each week. The featured teaching tools are to be made by teachers to assist pupils in developing a specific literacy or thematic competence.

Handwriting Patterns

Handwriting Hints
Before you start your handwriting class this week, try some finger exercises with your pupils. Have them stretch their hands out wide with fingers spread apart. Then they should squeeze their fingers into a fist. Repeat this several times. Next have the pupils press each of the fingers on both hands into their thumbs. Start slowly from index finger to little finger and back. Increase the speed as the children get comfortable with the exercise.

Letter Formation Guidelines
We provide systematic handwriting exercises each week so that by the end of the year pupils are forming all the letters correctly.

Handwriting Hints
Along with handwriting practice on the slates, we offer you advice on teaching handwriting each week. These helpful hints will improve your ability to teach handwriting to your pupils.

References
This box refers the teacher to two documents:
• National Primary School Curriculum Uganda (NPSCU) Teacher’s Guide and
• NPSCU Scope and Sequence document.

You should use these references when planning your lessons to further understand the MoES expectations for your teaching during the week.

Class Story Starters

Type of Story: Fiction
Characters: Children in classroom and a loud buzzing bee
Setting: A P1 classroom
Action: One day there was a very curious bee. He saw many children entering a building. He wanted to know why they went in there and what they were doing. As he entered the classroom, he flew low over the children’s heads to look at their exercise books. Many children were afraid of the bee. What happens next?
(Note: You can make a bee from a piece of manila and attach it to the end of a stick. The whole class can be involved in this role play as you make the bee fly over the classroom.)

Class Story Starters

Most weeks during Thursday’s Story Reading Time the teacher and pupils compose a story together that forms the basis for the reading lesson for the rest of the week. This box gives the teacher some ideas and structure for how to compose a story together with the pupils using the week’s keyword.
Term 1 Lessons

A Mango Tree Primer
Overview of the Term 1 Literacy Competences

The four tables found on these two pages provide an overview of the key competences we expect pupils to demonstrate during P1 Term 1. The tables are divided into the four basic literacy skills: reading, writing, listening and speaking. Beside each table is a brief overview of the skills you will be working on this term.

The columns in the tables are listed from O (for Orientation Week) to Week 13. Each column represents one week in the term. The shaded boxes indicate the weeks when you will be actively asking pupils to demonstrate these competences in class, evaluating pupils’ performance and recording their results in the Continuous Assessment Monitoring Form (CAM Form).

The CAM Form summarizes the competences in these four tables into an easy to use one-page document. More information on how to use the CAM Form is outlined in the How to Teach section of this teacher’s guide.

At the end of the term you will complete a Parent Report Card for each pupil. Once again, the same competences listed here are summarized for parents on a one-page report. (See page 156 for a sample copy of the P1 Term 1 Parent Report Card.) Space is also provided for you to add personal comments about individual pupil’s performance.

The average pupil should be able to satisfactorily perform these competences by the end of the term. Some pupils will master the competences with ease and be ready for greater challenges. Other pupils will not be able to perform these skills to your satisfaction during the first term.

The CAM Form will help you identify the pupils on both ends of the academic spectrum that need extra support. The Literacy Report Card will help you to communicate your concerns to the parents of these pupils to enlist their support.

### Overview: Reading

In Term 1, the focus is on training pupils’ eyesight so they can identify individual letters and words.

Your pupils should also be able to give a simple definition for the concepts of letter and word by the end of term.

Each week pupils will learn three new sight words. By the end of the term pupils should be able to read about 20-30 sight words from flash cards.

## Overview: Listening

There are two basic types of listening skills we will work on in Term 1: listening to the whole (for comprehension) and listening to the parts (to recognize speech sounds). Listening is also an important life skill. Competences 1 and 4 in the table are focused on the social dimension of listening.

## Overview: Writing

Pupils will be introduced to formal handwriting during Term 1. They need to know how to sit properly and hold a piece of chalk or a pencil correctly. They should also be able to write their surname correctly by the end of the term. Most importantly, we want pupils to discover that writing and sharing stories is fun and meaningful.

Theme: Orientation Week

Term 1 Week 1

Orientation Week Activities

The illustration of Apio and Ocen on the following page is found in the Term 1 pupil primer. The very first time you hand out the pupil primers to the learners, use this page to introduce Apio and Ocen to the class. Ideally, this should happen during Orientation Week.

Explain that Apio and Ocen are pupils beginning P1. Just like the pupils in your class, they are very excited about learning to read and write. Tell the learners that this book is specially made to help them learn to read and write their home language, Leblango. Tell them they will get a new book each term.

Take this opportunity to talk to the learners about how a book has a front and a back. Have the learners turn to the first lesson. Demonstrate the proper way to turn a page so that the pages do not get torn. Move briefly through all the lessons, explaining to the learners that every book or newspaper has a beginning, a middle and an ending.

Assess your pupils’ understanding of the front and back of a book. Do this by asking them to show you the cover of the book. Then have them show you the last page (the back cover) of the book.

Ask the children for suggestions about how they can care for the book so that it stays clean and nice throughout the whole term. Some good ideas include:

- Turn the pages carefully.
- Pass out the books carefully. No grabbing or throwing books around.
- Only handle books when your hands are clean. If your hands are very dirty ask the teacher for permission to wash your hands.
- Cover the books with newsprint or other paper.

Above all, impress upon your learners the important role books play in learning and the need to treat them respectfully. The most effective way to teach them this is through your own actions. Show them the respect, care and love you have for books in your daily classroom behaviour.

Competences

Reading

- Identify the front and the back of the book.
- Point to the title of the book.
- Handle a book properly. This includes turning the pages properly to avoid bending or tearing the paper and distributing and collecting classroom books in an orderly manner.

Writing

- Sit properly when writing.
- Use the chalk and slate correctly.
Sub-theme: Orientation Week

Term 1 Week 1

Handwriting Hints

Here is a set of exercises you can do before beginning a handwriting lesson:

- Stretch the fingers of both hands as wide apart as possible then squeeze the fingers into a fist.
- Wriggle the fingers loosely in all directions.
- Press the index finger of each hand into their respective thumbs. Next do the middle finger, ring finger and little finger. Repeat several times increasing the speed as pupils get better at it.
- Rotate both wrists clockwise for about 15 seconds. Repeat rotating the wrists anti-clockwise.
- Rotate the shoulders forward for about 15 seconds. Repeat rotating the shoulders backwards.
- Sit with feet flat on the floor and back straight. Arch your back and look up at the ceiling. Now roll your back forward and look down at your desk. Repeat a few times.

Now your body is warmed up and ready to start handwriting!

Listening

- Sit quietly with hands to oneself and eyes on the teacher.
- Respond to one’s name
- Follow simple, one-step instructions.

Speaking

- Say one’s name, the name of the teacher and the name of the school.
- Greet the teacher properly in Leblango.
- Identify dangerous objects in the classroom and outdoors.
Beginning of the School Year Checklist

Preparing your classroom for the school year is a lot like packing for a trip—you have to have the right supplies if you want things to go smoothly. Teachers have many responsibilities in terms of managing a classroom, and most of these responsibilities come with some sort of material requirement. Creating a checklist of things you should have for your classroom is one excellent method for ensuring you start the year off right. Below is a suggested checklist you can use as you prepare to begin a new academic year:

- Mango Tree Teacher’s Guides for Leblango and English
- Pupil Primers for Leblango and English
- Classroom Rules Chart
- Copies of the CAM Form for ALL the pupils registered for you class
- Sight Word Flashcards completed for at least the first 4 weeks of the term
- English flashcards completed for at least the first 4 weeks of the term
- Note to send home to parents listing the instructional materials requirements for Term 1
- Thematic Charts (see this teacher’s guide for suggested charts)
- Slates and Chalk
- Markers, pens and pencils
- Masking Tape

Sight Word Flash Cards

Step 1: Fold the manila like this:

```
-----------------------------------
|                                 |
|                                 |
|                                 |
|                                 |
|                                 |
|                                 |
|                                 |
|                                 |
```

One manila makes 16 sight word flashcards.

Step 2: Cut out the 16 cards from the sheet.

Step 3: Make lines on the flashcard with a ruler

Make pencil lines here and here

Step 4: Neatly write the sight word on the card with a marker using the ruled lines.

Your sight word flashcard is ready to use!

The sight word flashcards are one of the most important teaching and assessment tools you will use this year. You will use them every week during Story Reading Time. Read the How to Teach Story Reading Time lesson templates for Tuesday and Wednesday to understand how to use them.

A few things to know about sight word flashcards:

- You should use your best handwriting when making these cards.
- Do NOT hang these cards up on strings or paste them to the wall. They are designed to hold in your hand, flipping quickly from one card to the next.
- Save your sight word flashcards each week. Each week you should review a few words from the previous week. At the end of the term you can test the pupils using a representative sample of all the sight words.
- Pupils can use the sight word flashcards from the previous term during free activity time.

How to Make your own Grain Sack Chart

1. Begin by drawing your chart in pencil on a piece of newsprint. This is your "stencil".

2. Have a friend review your stencil for spelling errors and design problems.

3. After you have completed a final draft in pencil, select your colours and use markers on the stencil.

4. Lay the sewn grain sack over the stencil and trace it. Save the stencil for future use.

From the Ministry of Education and Sports Handbook for Non-textbook Materials:

"Wall charts are excellent for stimulating thinking and directing learners’ attention. You can use them at different stages to strengthen learning in different subjects…"

It is important that you use wall charts to integrate subjects or extend and expand ideas. For example, you can use a P-1 science chart on “Animal Movements” to also teach basic vocabulary in English or the vernacular such as running, jumping, hopping and crawling. In upper primary, you can use the same chart to teach older children more advanced vocabulary such as swooping, waddling, pouncing, and trotting."

Charts made from grain sacks are more durable and portable. They can last for several years if properly cared for. If you start by making a stencil, then you can make multiple copies of the same chart to share with other teachers in your grade level.

Listening
- Sit quietly with hands to oneself and eyes on the teacher.
- Respond to one's name.
- Answer comprehension questions during Story Reading Time.
- Follow simple, one-step instructions.

Speaking
- Say one's name, the name of the teacher and the name of the school and greet the teacher properly in Leblango.
- Talk about issues related to the week’s sub-theme with fluency and comprehension.
- Use vocabulary words related to the week’s sub-theme with meaning and comprehension.
Continuous Assessment Activities

Writing: Using Slates and Chalk
- Observe pupils as they use the slates and chalk. Note any pupils who are having difficulty with correct sitting posture or who are not holding the chalk correctly.

Listening: Monitoring Pupils’ Listening Behaviour
- Continue to monitor proper listening behaviour in the classroom. Note pupils who are having trouble sitting quietly and attentively.

A teacher should establish rules and expectations in the first weeks of school. A good plan for classroom management will positively impact pupils’ learning and also make teaching more fun and rewarding for the teacher.

One component of a good classroom management plan is to have a list of rules posted in your classroom. You should limit your rules to about 4-6 positive statements that show students what is expected of them when they enter your classroom. It is important that these rules are displayed in a location where the students can easily view them and the teacher can easily refer to them.

You may have an idea of the rules you want for your classroom, but you should still involve pupils in creating the rules. Let them give their suggestions. You can shape their words so that they cover the issues you want to address.

Once the rules have been written and posted on the wall be sure to talk with your pupils about the consequences of following or not following the rules. Make sure that your pupils understand what you expect from them and use the rules consistently and fairly on a daily basis.

Class Story Starter

Type of Story: Fiction

Characters: Teacher, two P1 pupils

Setting: A Saturday market day

Action: Two pupils are at the local market on Saturday. While walking around looking at the different items on sale they see that their new P1 teacher is also at the market. The pupils have never seen their teacher outside of school. When their teacher comes up to greet them the pupils are nervous. What happens next?

Handwriting Hints

Air writing is a great method to teach handwriting. Have your pupils write the pattern or letter you are teaching in the air before they begin practice on the slates. These large muscle movements will help your pupils process what they are writing and makes it more likely to stick. As they write the letter in the air, have them repeat after you the directions for writing the letter. For example, for the letter T, you might say, “Start at the top, go straight down.” (Pupils repeat as they make the first line.) “Now, I pick up my pencil and cross it.” (Again pupils repeat your sentence as they cross the T.)

Continuous Assessment Activities

Reading: Matching Pictures and Shapes

- Do picture and shape matching activities on the chalkboard and in the primer. Make note of pupils who are having difficulties.

Writing: Posture

- Observe pupils during Creative Writing Time. Are they using correct posture? Are they gripping the chalk correctly?

Speaking: Confidence

- Be sure to note the pupils who lack confidence in speaking during class. Give them special support and attention. If you plan to call them up to read their story at the end of Creative Writing Time, be sure to prepare them in advance and praise them for their effort.

Things Found in School Chart

You can use this chart at the end of Story Reading Time on Monday through Wednesday as you develop concepts and vocabulary related to the sub-theme.

Ask pupils if they can identify and name a picture in the chart. After they have done this correctly ask the children to look for an example of the real object in the classroom. Have one child go and touch the real object, holding it up for the whole class to see.

Ask some questions about the object. Here are some sample questions:

- “How is it used?”
- “What is it made of?”
- “Who makes this object?”
- “Who uses this object the most?”
- “How do we take care of this object?”

Characters: Teacher Lilly, Apio and Ocen

Setting: School classroom

Action: Apio and Ocen are late for school. As they are running to class they hear the teacher ring the bell to signal the beginning of lessons. After a few moments Apio and Ocen enter the classroom. The teacher turns around and sees them entering class late. What happens next?

Handwriting Hints

Left-handed children can have some trouble when they first start writing as they have to push their chalk or pencil across the page from left to right rather than pulling it like a right-hander. Also, as their hand is following the pencil or chalk, it is easy to smudge the work. To solve this problem, left-handed children should try to position their hand and paper to hold the pen at an angle that will keep them both below the line of writing uncomfortable "hook" style of writing - definitely to be avoided!

Here are a few suggestions to help your left-handed writers:

- Rotate the paper about 45 degrees clockwise (move the top to the right).
- Keep the hand and wrist under the writing line.

The slates, chalk and dusters are important teaching tools. The school should provide each pupil with a slate and a daily supply of chalk. Pupils should be responsible for bringing a simple duster from home made from a rag. As the classroom teacher you are responsible for maintenance, storage and daily distribution of these materials.

Organize a space in your classroom where the slates and daily supply of chalk are stored. This space should be accessible to your pupils. Over the course of Term 1 it is your responsibility to train your pupils to distribute and collect the slates and chalk in an orderly and timely fashion. This responsibility gives pupils practice in a variety of important academic and life skills.

Teachers will come up with their own distribution and collection systems, but a few tips include:

- Organize pupils into groups of about 10-12 based on their seating arrangement.
- Assign one or two pupils in each group to distribute and collect the slates and chalk each week.
- Keep the chalk for each group in simple containers made from empty 500 ml water bottles.

Type of Story: Fiction

Characters: Farmer Ojok and his naughty goat

Setting: Grassy field

Action: Farmer Ojok has taken his goat out to grassy field to eat. He has loosely tied the goat to a tree. After a while Farmer Ojok falls asleep. While the farmer is asleep, the naughty goat escapes from his rope. The farmer then wakes up and chases the goat, trying to catch him with the rope. What happens next?

Handwriting Patterns

Handwriting Hints

When children struggle with handwriting, it affects their overall performance in school. Creative writing becomes a problem. Spelling becomes a problem. Math becomes a problem. All of the subjects are much easier to learn when good handwriting is an automatic process. So invest the time and energy in P1 Term 1 to help your pupils with their handwriting.

Continuous Assessment Activities

Reading: Understanding the Concept of a Word
• Ask individual pupils to show you a word either on the chalkboard or in a book. Note pupils who do not understand what a word is.
• Think of a simple 3-4 word sentence. Ask pupils to say the sentence out loud and count the number of words as they speak. This activity will give you an idea what percentage of your pupils can correctly segment a sentence into individual words.

Writing: From Left to Right
• During Creative Writing Time this week make a list of all the pupils who are writing backwards or from right to left. Plan some special sessions with these pupils to help them recognize what they are doing wrong. Some pupils may only need simple prompts to change this behavior. Other pupils may have more serious learning challenges that will take time to overcome.

Our Family Chart

Make a chart to represent a simple “family tree” for Apio and Ocen, the children in the primer stories. This chart can be used to assess your children’s knowledge of vocabulary related to the family.

You can also make sight word flashcards for each of the family names in the chart. Have pupils match the flashcard with the word and picture on the chart. The words atat, amin and kwärö are already keywords used in Term One.
Sub-theme 2.1: People in Our Home

Handwriting Patterns

Handwriting Hints
This week you begin teaching your pupils letter formation. Be sure to review the letter formation guidelines in the back of this teacher’s guide before you teach your pupils.

Carefully oversee your pupils as they practice forming the letters. You don’t want children to fill the slate with improper work! Praise letters and words written well and have the pupils erase and rewrite anything unacceptable. While this may seem time consuming, remember that it will actually take more time to undo bad handwriting habits.

Continuous Assessment Activities

Reading: Matching Sight Word Flashcards
• Do sight word flashcard matching activities on the chalkboard and in the primer. Make note of pupils who are having difficulties.

Listening: Following One-Step Instructions
• Give individual pupils one-step instructions. Examples: “Moses, put your slate on my desk.” or “Betty, give this book to Susan.” Note any pupils who have difficulty following one-step instructions.

Term 1 Reader: Wot Atim i Limo

This reader has almost no words. It is designed to develop children’s creative thinking, sequencing and storytelling skills. It also helps children to learn the parts of a book. You will use this book during the Reader Story Lessons in Story Reading Time. (See How to Teach Story Reading Time for more information.)

Developing pupils’ visual discrimination is an important focus during Pre-Reading and Pre-Writing Time lessons on Tuesdays and Thursdays. This book provides a variety of visual discrimination activities you can do with your pupils. For example, there is the same number of birds in each illustration as the number for that page. Challenge pupils to see if they can find all the birds on each page. (Watch out! Some are hiding.) In addition, you can use the book for counting and number formation activities during your daily Numeracy lessons.

This week you will use this reader instead of creating a Class Story. After the children are familiar with the story and have practiced telling the story in a small group, they should take the storybook home and “read” it to their parents. Begin preparing your pupils for taking a book home a week or two in advance. (For more information about how to do this, see page 51 in the How to Teach section.)
Sub-theme 2.2: Roles and Responsibilities of Family Members

Term 1 Week 6

Handwriting Patterns

Class Story Starter

This week instead of a Class Story you will use the Reader Story provided for Term One, *Wot Atim i Limo*. Pass the book out so all your pupils have a copy. Review how to handle a book properly and point out the Title, Author and Illustrator of the book.

*Wot Atim i Limo* is a picture book. The only words are the numbers featured on each page. You can make sight word flashcards for the numbers and practice them during your daily Numeracy lessons for the rest of the term if you like.

More importantly is having the pupils understand the story and able to tell the story themselves demonstrating fluency (speaking smoothly) and comprehension (using the correct setting, characters, plot and vocabulary).

Handwriting Hints

Are your pupils able to make the correct spacing between the letters? One way to help your pupils in the early stages of handwriting is to have them place one finger from their non-dominant hand on the page after each completed letter as they form the new letter. This ensures that they are making a space and that the space between letters is fairly consistent.

Identify and name 5 objects found in our home.
These picture cards are designed to help children develop their eyesight so that they can see the small differences in letters like a and u or n and r.

These cards should be used during Pre-Reading and Pre-Writing Time when you are focused on developing children's visual skills on Tuesdays and Thursdays.

The cards present three different types of visual puzzles for the children:

1. **What is Missing?** Here the children are looking at an object and trying to find what is missing.
2. **Find the Match.** These cards ask the children to find the two objects (out of four) that are exactly the same.
3. **Odd One Out.** In this one the children find the one object that is different from the other three.

You can create more of these visual puzzles and put them on the chalkboard or manila cards for children to solve!

Handwriting Hints
Bring the letters of the alphabet alive for your pupils by giving letters different personalities based on their appearance. For example, this week you are teaching pupils to write the letters G and P. Point out that the “father” and the “son” for letter P look very much alike, but it’s not the same for letter G. The little g does not resemble his baba at all! Father P has a big head. He must be very intelligent. Father G is big and round. He must like to eat.

Put-together puzzles develop visual skills, spatial and geometrical awareness and creative problem solving.

Since most children in your class will not be familiar with put-together puzzles, start with simple 2-piece puzzle sets on a topic related to the theme you are teaching. The puzzle set in the illustration is a set of five animals found at home. You could also make 2-piece puzzles on topics like Tools used in the Garden; Fruits found at Home; or Things we use for Cooking.

After you have decided on the theme of your puzzle set, cut out a set of cardboard rectangles all the same size (10 cm x 15 cm is a good size). Three to five puzzles is a good number for a set. Next draw a picture on each piece of cardboard that relates to your theme. Draw first in pencil and when you have done it to your satisfaction use markers and coloured pencils to finish the work. Finally, cut each piece of cardboard into two pieces and put all the pieces into a bag.

The child’s job is to take all the pieces out of the bag, spread them out on a flat surface and try to match the pieces that fit together.

Handwriting Hints

If a child is having problems with handwriting, he/she may have poor eye sight. If you notice a child squinting or struggling to read what is on the board, try moving that child to the front row during reading and writing activities. Also be sure to write clearly and large enough for words on the board to be seen by the pupils at the back of the room.

Difficulties with vision will affect the child’s hand-eye coordination which is required for aspects of spatial and motor control. Poor vision is the cause of many learning difficulties, so teachers should pay attention to pupils who indicate they may have a vision problem.

Continuous Assessment Activities

Reading: Understanding the Concept of a Word

- Ask pupils to point to words around the room: on the chalkboard, in charts and in books. Have a discussion with pupils about what a word is. Pupils should understand that while a letter represents a sound, words represent something more. Words represent things and actions. They have meaning. Pupils should also recognize that in the stories they read there are spaces between the individual words. Pupils should also identify that some words are short (One letter can be a word!) and some words are long (Who can find the longest word in the room?)

Writing: Writing Your Name

- Give each child a small sheet of paper. Ask everyone to write their name as best as they can on the paper. Note pupils who can successfully write their surname correctly and those who are still struggling to form letters.

How to Make a Wrap-Up Set

Wrap-ups are easy to make, fun for children and teachers like them because children can find out if they did it correctly without assistance.

To make a wrap up you need to begin by deciding on a topic. Anything that requires matching will work. Next, cut out several pieces of sturdy cardboard. (12 cm x 24 cm is a good size for young children, but your wrap-ups can be larger or smaller.)

Four to six matching pairs is enough for young children. Divide your wrap-up accordingly and, using a pencil, do the writing on your stencil. When you have it just the way you want it, complete it using markers and coloured pencils.

Finally, you need to punch a small hole at the top of your wrap-up. Then make small notches next to each matching pair. Also make a small slit in the bottom of the wrap up so that all the pairs are matched. Then take your pencil and draw lines on the back of the wrap up to show the correct answer to the wrap up. Unwrap the string and use a marker to make the lines darker. Your wrap-up is ready to use!

Term 1 Week 10

Continuous Assessment Activities

Reading: Assembling a Jig Saw Puzzle
- During Free Activity this week spread out all the jig saw puzzles for pupils to play with. Note how pupils are able to complete this task.

Listening: Initial Sound Identification
- Say three words aloud, for example “dwar, rëc and noc.” Ask a child to identify which word begins with the n sound. Continue with other words and other sounds. Note the pupils who are having difficulty with this activity. (Remember, in the beginning it is easier for pupils to hear continuing sounds like nnnn, mmmm and ssss. So start with these simple sounds first and build up to more difficult sounds like c, t and p.

Our Community Chart

The Our Community Chart illustrates six important places in the community: church, mosque, clinic, school, shop, and police post.

The words for these six places are not labeled on the chart. This gives you an opportunity to play a word game with the chart. Begin by introducing the chart and asking the children to identify the six important places in the community. As children name the places write the answers on pieces of manila (about 6 cm x 12 cm) and pin or tape them to the chart. Review the words so that the children become familiar with them.

The next day, take the manila cards off the chart. Ask children to read the words on the cards and re-attach them to the chart. Do this for several days in a row until children are comfortable reading these words by sight.

Speaking: Retelling a Story
- Ask pupils to retell the Primer or Class Story for this week. Note pupils’ ability to retell the story with fluency, accuracy and comprehension.

Our Body Chart

As you teach the words on the Our Body Chart, ask the children to touch that part of the body with their hand. Observe your class carefully to see that all the children are touching the correct part of the body.

Make a living My Body Chart. Make cards with the names of the body parts on them. Have a child come to the front of the class. Attach the cards to the correct part of the body. Compare with the chart.

Use the Our Body Chart to assess children’s knowledge of their body parts. Cover the words on the My Body Chart. Ask selected children to say the names of the body parts as you point to them. Note any children that have difficulty with this task.

Writing: Understanding the Concepts of Letters and Words

- Ask all the pupils to write a word on their slates. After giving them time to write, ask the pupils to show you what they have written on their slates and note any pupils who have not completed the task successfully. Next, ask the pupils to circle one letter in their word. After an appropriate amount of time, again have all the pupils show their slates. Again, note any pupils who have difficulty identifying a letter.

Speaking: Vocabulary

- Cover the words on the My Body chart. Ask selected pupils to say the names of the body parts as you point to them. Note any pupils that have difficulty with this task.

How to Make a 4-Piece Put-Together Puzzle Set

Once your pupils are successfully completing the 2-piece put-together puzzle sets you have created, you can start to make 4-piece put-together puzzle sets to challenge them.

To make a 4-piece puzzle set you follow the same process you did in making a 2-piece set. One difference is the size of the puzzle. Since you will be cutting this puzzle into four pieces, we recommend that you start with a bigger piece of cardboard. A 20 cm x 20 cm square is a good size for a puzzle that is going to be cut into four (and later six) pieces.

How you decide to cut this puzzle into four pieces is very important. Make sure that each of the four pieces contains a meaningful piece of information to help the child in mastering the puzzle. Making a frame around the puzzle is also recommended. And instead of 10 puzzles in the set, this time only include two or three puzzles in a set.

Finally, here are a few ideas for puzzle sets related to the theme The Human Body and Health.

- Set 1 (Ways of caring for the body): Brushing Teeth, Bathing, Combing Hair
- Set 2 (Things used for cleaning the body): Toothbrush, Soap, Comb
- Set 3 (Insects that spread diseases): Mosquito, Housefly, Cockroach
Sub-theme 4.2: Personal Hygiene

Handwriting Patterns

Handwriting Hints

Term 1 is almost over. How many pupils can write their surnames properly? More importantly, which pupils are NOT succeeding in writing their surname yet and what plans will you put in place in Term 2 to help them? Talk to these pupils and their parents before the term ends. Encourage them to practice writing – in the mud, in the dirt, with their finger, with a stick – during the holiday. Remind them that the number one rule in handwriting is, “Practice makes perfect.”

Class Story Starter

**Type of Story:** Fiction

**Characters:** One clean child and one dirty child

**Setting:** A kitchen with a water jug

**Action:** Two children come to a kitchen. They are thirsty and want to drink some water. The dirty child hasn’t washed his hands and plunges his hand and a dirty cup into the clean water. The clean child sees what’s happening. He must explain to the dirty child how to take water from a pot without getting the water dirty. What happens next?

End-of-Term Assessment

The most important assessment for the term is the daily assessment you do using the CAM Form. Nevertheless, you may also want to assess all or a percentage of your class at the end of the term to see if you have met the key literacy competences outlined at the beginning of the term.

The following pages provide you with guidelines for end-of-term assessment activities you can do during the final weeks of the term.

Reading Skills Assessments

Sight Word Test (Individual)
Select 20 sight word flashcards from Term 1. Show them one at a time to a pupil. Put correct responses in one pile and incorrect or no responses in another (if a pupil does not read the word within 5 seconds it is counted as a no response). Record the number of correct responses out of 20.

15+ correct responses - bër atëk (BA) superior performance
10-15 correct responses - bërbër (BB) satisfactory performance
≤9 correct responses - amïtto akönyä (AA) needs more work

Visual Discrimination Test (Whole Group)
See the reproducible handout on page 160-161 entitled in Leblango “Temmo Diro Nemo”. Carefully read the directions for administering the test several days beforehand. Complete the test with the whole class. Collect the test and mark as follows:

9-10 points - bër atëk (BA) superior performance
7-8 points - bërbër (BB) satisfactory performance
≤6 points - amïtto akönyä (AA) needs more work

Writing Skills Assessments

Writing One’s Name (Whole Group)
Give the pupils a piece of exercise paper and a pencil. Ask the pupils to write their surname (African name) in their best handwriting. As pupils are writing, move around the room and observe their work. For pupils who cannot write a legible name you will need to write their name in pen at the bottom of the page so that you can assign a score later.

Score as follows:
• Legible (spelling or direction may be wrong, letters may not be formed perfectly but are readable)—2 points
• Writes from left to right—2 points
• Spells name correctly—2 points
• Correct mix of capital and small letters—2 points
• All letters formed correctly—2 points

Mark as follows:
8-10 points - bër atëk (BA) superior performance
6-7 points - bërbër (BB) satisfactory performance
≤5 points - amïtto akönyä (AA) needs more work

Writing a Story (Whole Group)
For the final Creative Writing Story of the term (keyword: gulu) have the pupils write their story on exercise paper. Collect their stories and mark as follows:

bër atëk (BA) superior performance - The pupil not only writes the keyword correctly, but includes other words on the page (not including “cök” or their name). The extra words do not need to be spelled correctly.

bërbër (BB) satisfactory performance - The pupil writes the keyword correctly and draws an interesting and detailed picture.

amïtto akönyä (AA) needs more work - The pupil does not write the keyword correctly. The picture is crude and hard to interpret.

Term 1 Week 13: Assessment

**Listening Skills Assessments**
Initial Sound Test (Individual)
See the reproducible handout and instructions found on pages 162-163. It has the title *P1 Term 1 Listening Assessment: Initial Sound Test*. This test needs to be done one-on-one so we suggest you begin assessing individual pupils after the sixth week of the term.

**Speaking Skills Assessments**
There is no end-of-term assessment for speaking skills. You need to be sure that every pupil has an opportunity to “read” their story to you during Creative Writing Time. Mark as follows:

*bër atēk* (BA) superior performance - The pupil’s story demonstrates excellent creativity, meaning, sequencing and fluency. The pupil speaks loudly and clearly, engaging her fellow pupils with confidence. She holds the slate properly so that everyone can see.

*bërber* (BB) satisfactory performance - The pupil’s story shows some aspects of creativity, meaning, sequencing and fluency. The pupil speaks so that everyone can hear her.

*amītto akōnyā* (AA) needs more work - The pupil did not write the keyword correctly. The picture was crude or hard to interpret. The pupil did not speak loudly or clearly.

The Parent Report Card

You will fill out this Parent Report Card for each of your pupils at the end of the term. You should also attach work samples (name writing sample and story writing sample) from the end of the term to give your parents an idea of how their pupils are performing.

How you grade your pupil at the end of the term is based on a combination of the daily, weekly and term assessments you have done.

We will use the following terms to represent the “grade” your pupil achieves:

Grade = Leblango (English)

BA = Bër atëk (Superior performance)

BB = Bërbër (Satisfactory performance)

AA = Amîatto akönä (Needs more work)

The CAM Form

On the following page is a copy of the Continuous Assessment Monitoring Form (CAM Form) that you will use on a daily basis to track pupil competences in your classroom. (You will need to make photocopies of the sheet so that you have enough lines for all the pupils in your class.)

Use the following marking guide:

+ bër atëk / superior performance / exceeds the defined competence

✓ bërbër / satisfactory performance / demonstrates the defined competence

o amîatto akönä / needs more work / has not yet mastered the defined competence

Pupils who receive an o assessment (has not yet mastered the defined competence) should be assessed again later in the term to see if there has been improvement.

End-of-Term Record Keeping Sheet

P1 Term 1 Reading Assessment: Visual Discrimination Test

Directions: Visual Discrimination Test
(A Reading Skills Assessment)

1. Make enough copies of the handout provided on the opposite page so that each pupil has a copy.
2. Make sure the pupils are comfortably arranged around the room so that they can do their own work.
3. Distribute the assessment handout to the pupils and tell them to write their name at the top of the page. Help those pupils who still cannot write their name legibly.
4. Explain to the pupils how to do the first matching exercises. A sample exercise has been provided to assist you. Give the pupils sufficient time to complete the matching exercise.
5. Continue to the “odd man out” exercise. Again, a sample has been provided to help direct the pupils in how to complete the exercise successfully.
6. When the pupils have completed the second exercise, collect the handouts and thank the pupils for their good work.

Scoring the Matching Assessment

This assessment asks pupils to match 10 pictures, letters, syllables or words. (The first line in each box is for demonstration and practice.) Each test item is worth one point for a total of 10 points.

Marking the Matching Assessment

9-10 points - bër atëk (BA) superior performance
7-8 points - bërbër (BB) satisfactory performance
≤ 6 points - amitto akönyä (AA) needs more work
Directions: Initial Sound Identification Assessment
(A Listening Skills Assessment)

1. Give the pupil the stimuli with the 6 picture sets (see the following page).

2. The first picture set is for demonstration and practice.

3. Say the following to the pupil in Leblango:
   Look at the first picture. It is a “kom” (chair). Kom starts with the sound “k”. Now I’m going to say three more words. I want you to listen and tell me the other word that starts with the “k” sound.

4. Point to the pictures and say the names for the next three pictures (dyel/goat, kopi/cup and tok/cap). You can repeat the directions once if the pupil doesn’t provide the right answer. If the pupil still does not respond or responds with the wrong answer say the following: The correct answer is kopi. Kom and kopi both start with the “k” sound. Now let’s try another one.

5. Continue with the next five initial sound identification questions in the same way.

Scoring the Initial Sound Identification Assessment
This assessment asks pupils to identify 5 initial sounds. (The first set is for demonstration and practice.) Each test item is worth one point for a total of five points.

Marking the Initial Sound Identification Assessment
5 points - bër atëk (BA) superior performance
3-4 points - bërbër (BB) satisfactory performance
≤2 points - amïtto akönyä (AA) needs more work
